MEMORANDUM FOR THE DIRECTOR

RE: GORDON A. NEASE

Mr. Nease reported to the Office of the Director for assignment on May 1, 1941. He has, therefore, completed thirty days' assignment in this office.

Mr. Nease is in Grade CAF 10, \$3500 per annum. He entered on duty in the service as a Messenger on April 26, 1935 and as a Special Agent Accountant on November 1, 1938, and is eligible, therefore, for consideration for an increase to Grade CAF 11, \$3800 per annum.

Pending submission of a 45-day report, it is desired to point out that Mr. Nease has been very diligent, enthusiastic, earnest and has applied himself to his duties. There is no reason to believe otherwise than that his services will be satisfactory.

Therefore, his reallocation and promotion is recommended at this time.

Respectfully,

S. J. Tracy

MEMORANDUM FOR THE DIRECTOR

RE: GORDON A. NEASE
Special Efficiency Report

Mr. Gordon A. Nease, Special Agent (A), entered on duty in the Office of the Director on May 1, 1941. He has, therefore, completed forty-five days in his present assignment. Mr. Nease was previously assigned to the Office of the Director prior to becoming a Special Agent (A).

This Special Agent (A) is serious minded, is intelligent, and has a good background for his present assignment. He is attentive to detail and careful to understand thoroughly before taking action which is an excellent trait for the type of work he is doing. He is accurate, is calm, yet he is capable of handling a large volume of work. I think that he will continue to develop and consider that his services have been satisfactory during the entire period of his present assignment. Mr. Nease has an excellent attitude, he understands and appreciates the problems confronting the work in the Director's Office and is sufficiently adaptable to meet the situations that arise.

Reference is made to the Bureau's request of September 2, 1941, for a special efficiency report on Special Agent Gordon A. Nease.

Mr. Nease has continued to develop since his assignment to the Office of the Director. He is alert; has exceptionally good judgment, considering the length of his service in the Bureau. He has definite promise of developing along administrative and executive lines. His personality is suited to the type of work in the Director's Office. He is not easily rattled and is able to handle several matters at the same time without confusion. He is rather quiet and might give the impression of lacking in forcefulness, however, he is definitely not lacking in forcefulness. He handles visitors and telephone calls from Congressmen and other Governmental officials with ease and with apparent confidence. This is a desirable trait.

Mr. Nease was recently ill for several weeks in connection with an appendectomy, however, he has fully recovered.

I consider him to be above average and with above average prospects.

REMARKS

This Agent was last considered for reallocation on June 16, 1941, at which time he was promoted to Grade CAF-11 at \$3800. On June 17, 1941, Mr. Tracy said he was serious minded, intelligent, had a good background for his present assignment which is in the Director's office; that he was attentive to detail and careful to understand thoroughly before taking action which was an excellent trait for the type of work he was doing; that he was accurate, calm, yet was capable of handling a large volume of work; that his services had been satisfactory; that he had an excellent attitude and understood and appreciated the problems confronting the work in the Director's office and was sufficiently adaptable to meet the situations that arose.

On Sept. 6, 1941, Mr. Tracy said he had continued to develop since his assignment to the office of the Director; that he was alert, had exceptionally good judgment considering his length of service in the Bureau; that he had definitely promise of developing along administrative and executive lines; that his personality was suited to the type of work in the Director's office; that he was not easily rattled and was able to handle several matters at the same time without confusion; that he was rather quiet and might give the impression of lacking in forcefulness; however, he was definitely not lacking in forcefulness; that he handled visitors and telephone calls from Congressmen and other governmental officials with ease and with apparent confidence; and that he considered him to be above average and with above average prospects. Dear Mr. Campbell:

Reference is made to the Selective Service case of Mr. Gordon A. Kease who is duly registered at your Board. You will recall that under date of November 18, 1940, D.S.S. Form 42 executed by Mr. Matthew F. McGuire, the former Assistant to the Attorney General, was issued to your Board requesting that he be placed in a deferred status. Accordingly, he was granted deferment in Classification II-A until May 29, 1941. Subsequently, your Board placed him in Classification III-A on the basis of a dependency.

In accordance with the new Selective Service regulations I desire to advise you that Mr. Kease, in view of his increased experience and length of service, has now been promoted to a salary of \$4600 per annum. This information is being furnished to you in order that you will, at all times, have a complete set of facts with regard to this case.

MEMORANDUM FOR THE DIRECTOR

Special Agent G. A. Nease suggested practical training work in physical surveillances for new Agents' training classes and in-service classes. The Executive Conference, Messrs. Tolson, Glavin, Q. Tamm, Ladd, Carson, Holloman, and Clegg being present, considered this matter and it was felt that there should be in the city of Washington no training program which would involve surveillances either of Bureau employees or otherwise. There is too much potential danger, it was uniformly felt, that such practice surveillances might be detected by outsiders and there would be an unfavorable reflection on the Bureau. If the practice subject knew he was under surveillance, the test would not offer the practical advantages that would exist in actual cases and if he did not know he was under surveillance there would be a charge of spying on employees that would adversely affect the morale of the Special Agents in Washington.

At present there is given to the In-Service Class a three hour lecture on surveillances. This is followed sometime later by two additional hours of practical surveillance problems in which are set forth on the blackboard charts and diagrams of surveillance and at which time are discussed the delinquencies which have been discovered in handling surveillances by the Bureau. Practical suggestions are made in both of these periods of instruction to the new Agents. They are told, for example, specifically that they should never while on a surveillance in an automobile show their credential cards or their credit cards which would expose their affiliation with the FBI. They are also given practical advice and instructions on how to meet the various problems and difficulties which do arise during surveillances. In the In-Service School the entire subject of surveillances is covered not only with practical suggestions, but discussions based upon experiences of class members are held. There are cited examples of surveillances which have not been effective and mistakes made during surveillances. The Agents in the class who have had experience in surveillance work are called upon and they enter into a frank discussion of problems and difficulties and suggestions as to how to meet these difficulties.

Two of the current difficulties in handling surveillances, it was believed by the Conference were as follows:

- (1) Failure on the part of the Special Agents in Charge to plan the surveillances in advance in detail.
- (2) Use of Bureau automobiles with the large two-way aerials, there being one or two cars in each field office so equipped.

It was believed that a bulletin to all employees in the field should be transmitted calling attention to these points, but it was not believed that the practical surveillance problems involving actual physical surveillances in Washington should be engaged in and Agent Nease is being advised accordingly.

MEMORANDUM FOR THE DIRECTOR

I would like to submit the following ~~sug-~~
gestion for your consideration:

It is believed that a ~~practical~~ course in physical surveillances might be of definite value to the New Agents' Training Classes, as well as to the In-Service classes. It is believed by having such a course, many of the problems, particularly confronting new Agents in the field so far as surveillances are concerned, might be worked out.

Respectfully,

G. A. Nease

Dear Mr. Nease:

Reference is made to your recent suggestion that practical physical surveillance courses might be given to new Agents' and In-Service Classes in Washington. It is assumed by this that you mean actual practice physical surveillances.

The Bureau feels that there are many dangers in conducting such practical surveillances, particularly in Washington and vicinity, which might react unfavorably on the Bureau in the event these practice surveillances were observed by outsiders as they likely would be. The Bureau at the present time is endeavoring through instruction and suggestions, by citing undesirable practices and by panel forum discussions, to provide courses as practical as possible on the subject of physical surveillances.

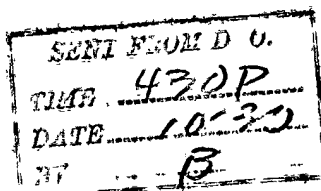

I want to express my appreciation for your suggestion and for your thoughtfulness in submitting it.

With best wishes,

Sincerely yours,

J. Edgar Hoover

Dear Mr. Nease:

The Bureau had considered your suggestion of May 6th to the effect that ticklers be attached to outgoing undated correspondence and dated in the Mail Room at the time the outgoing communication is cleared.

While the Bureau recognizes that some difficulty does exist, after careful consideration it was felt that the adoption of this procedure would cause considerable confusion and unnecessary work and that the present procedure should be followed.

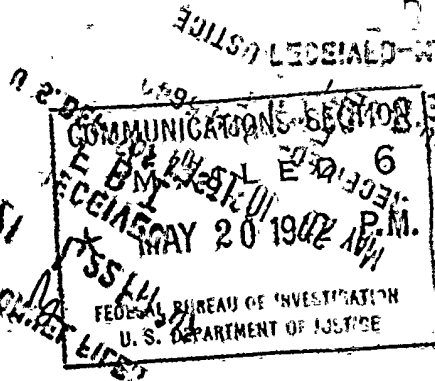

Although your suggestion is not being adopted, I do want you to know that I appreciate the interest in furthering the Bureau's work which prompted you to make this suggestion.

In connection with the comparatively new procedure of dating various types of mail in the Bureau mail room, it has been noted that considerable difficulty has been experienced from time to time in locating the yellow copies of various pieces of correspondence because of the fact the date of the particular piece of mail is not known until the yellow has been located.

As you are aware, it is often necessary to locate such yellows for reference purposes.

It is believed that this difficulty can be overcome if the person dictating correspondence of this type will also attach his tickler when sending the correspondence through for signature in order that when the date is stamped on the outgoing communication and the abstracts it can also easily be placed on the tickler copy, and the tickler can thereafter be returned to the dictator through the usual channels. This procedure will require little additional effort on the part of the mail room or anyone as the policy of preparing tickler copies of correspondence is more or less a uniform and necessary procedure throughout the Bureau.

Should the tickler be so dated it will not only materially aid in locating the corresponding yellows but will also definitely indicate to the dictator when a piece of correspondence was dated and actually mailed, and it will no doubt eliminate considerable searching on the part of the Files Section.

G. A. Nease

The grave crisis our nation now faces is well known to all of us. We are engaged in deadly conflict on many fronts thousands of miles from home, and the very ideals and principles on which our Government is based are threatened as never before. This conflict is not only being fought on foreign fronts, but has been brought to our shores through the activities of the alleged fifth columnist, the saboteur, the subverter and the spy. For years these insidious parasites have been swarming to our promising and verdant land, where all too often, they have been allowed to spread their hate and poisonous propaganda at will. But today a changing world presents a different picture and a gullible public is becoming ever aware of the perilous situation which threatens the internal security of our country. Today there is no doubt a question in the minds of many of you as to what has been done and what steps are now being taken to curb the growth and eradicate this destructive and traitorous element and also what you as private citizens can do to help.

In the past the FBI has been called upon to ferret out and eliminate many so called public enemies and their lieutenants who were preying upon our social structure, threatening our homes and safety; however, today those tasks seem rather obscure and relatively unimportant in comparison to the momentous task we now have before us in eliminating and preventing the spread of the subverter - the lieutenants and underlings of the three most ruthless

and vicious public enemies the world has ever known, namely Hitler, Hirohito and Mussolini.

There was a time, in the days of Dillinger, Pretty Boy Floyd, etc., when we of the FBI could literally over night plan the strategy for the apprehension or elimination of such venomous enemies of society and their cohorts; however, today a far different situation confronts us as we now deal with an enemy whose acts are far from spontaneous and have been planned years in advance by the most cunning minds of the nation they represent, but due to the usual foresightedness of our Director, Mr. J. Edgar Hoover, the strategy for coping with the paid heirlings of Hitler and his partners in crime was planned and in operation many months before Pearl Harbor - yes, years prior to December 7th, 1941.

Since 1924, Mr. Hoover has been building up the FBI into an organization which could effectively cope with the spy and the saboteur as well as the kidnaper and bank robber. Anticipating just such conditions as might exist today, Director Hoover established the FBI National Police Academy on July 29, 1935, in order to provide a program of training for local, county and state law enforcement officers. The primary purpose of the FBI NPA is to train select officers in order that they may return to their respective police departments and impart the training received at Washington, D. C. to the members of their departments. There have been 20 such Sessions had to date with 664 graduates from the Academy representing every state in the Union, Puerto Rico, Panama Canal Zone, Canada, England, and China. The graduates are

periodically given intensive re-training periods on subjects of vital importance to the National Defense.

Since the Fall of 1939, and under the leadership of Mr. Hoover, the greatest mobilization of law enforcement in the history of the United States has been carried out, resulting in a series of Police Conferences on National Defense being held quarterly throughout every section of the United States and attended by thousands of police executives. Now, en masse, local, county, state and FBI law enforcement officers with the FBI as the coordinating agency are waging an extensive warfare against the forces seeking to undermine this vital program of National Defense and Interndl Security. From the outbreak of the war on December 7th, 1941, until June 30, 1942, 9,405 aliens of enemy nationality were apprehended by the FBI and cooperating police officers. This number is far greater than such apprehensions taking place during a like period after the outbreak of the last War.

With the increase in responsibility, the FBI has expanded to meet the increasing demand. Approximately two years ago the total personnel of the Bureau was 2,432, (1/1/40), while today our personnel is over 11,000. There are still many opportunities for employment within the FBI. We are anxious to receive applications from young men and women qualified as typists, clerks and stenographers. In order to qualify for clerical positions the applicant must be 18 years of age or over and a high school graduate. There is also an excellent opportunity for young men between 23 and 35 years of age and who are trained as lawyers and accountants and are desirous of becoming Special Agents.

The methods of dealing with the Spy and Saboteur are often times tedious - requiring months of patient work before a single arrest is made. A spying agent cannot function without his source of information and contacts, so after we have learned his identity it often proves more profitable to place him under surveillance, thereby learning the identities of his associates in his atrocious trade and uncovering his source of information. In this manner the spy himself becomes unwittingly a valuable source of information to the FBI.

Illustrative of this type of investigation is a case recently completed by the FBI centering in New York. In February of 1939 William Sebold, a naturalized American citizen, returned to Germany. Upon his arrival he was contacted by the Gestapo and questioned in considerable detail about his occupational activities in the United States, particularly with reference to his employment in airplane factories.

In July, 1939, an individual contacted Sebold using the name of Dr. Gassner who threatened Sebold in order to induce him to return to the United States as a German espionage agent. Following Sebold's agreement to serve in the United States as an espionage agent, he was sent to Hamburg where he was trained in espionage work and instructed in such items as the concealing and transmitting of information and the operation of a telegraph key and making microphotographs and the like.

While in Hamburg he lived at the Kloptsstock Pension which was the quarters for espionage agents then in training. Prior to leaving Hamburg he was given the names of Colonel Fritz Duquesne, Herman Lang,

Lilly Stein, and Everett Roeder whom he was instructed to contact after his arrival in New York City. Sebold was given a separate micro-photograph for Duquesne, Stein, and Roeder which contained lists of information they were to get and forward to Germany. Sebold was further given microphotographs for himself which contained detailed instructions he was to follow and information he should develop. Sebold himself was given \$1,500, \$500 of which was to be paid to Roeder. A verbal message was sent to Lang.

Further instructions were that Sebold should contact some amateur radio operator upon his arrival and obtain instructions in radio transmission. Sebold was to get the operator to transmit messages for him or he himself was to buy a radio transmission set for use in sending messages to Germany. Sebold was furnished mailing addresses in China, South America, and Portugal. He was also told to join the National Guard in the United States in order to learn about the latest military equipment.

Sebold sailed from Genoa, Italy, and arrived in the United States on February 8, 1940, where he was met by an Agent of the FBI. He told his story and agreed to cooperate and carry on his activities as a German espionage agent.

In compliance with instructions which Sebold had received in Germany, he met Duquesne, Roeder, Stein, and Lang, giving to each the items which were sent over. Each meeting was of course under close FBI supervision and surveillance. From this time on Sebold carried out instructions which were given him by FBI Agents.

The matter of communication was of course important, and following instructions Sebold received in Germany, arrangements were made to erect a short wave radio station at Centerport, Long Island. This of course was done by technical experts of the FBI, and the station first contacted the German espionage station AOR at Hamburg on May 20, 1940.

The German authorities directed Erwin Siegler, a butcher on the S.S. Manhattan, to contact Sebold. Through means of the radio station, in contacts with Siegler and others, Sebold met and learned of many other men who were carrying on German espionage activities. Almost all of these were naturalized American citizens. Many of them were employees on steamships who acted as couriers or who collected information.

The German government sent money to Sebold either by courier or by cable or telegraphic transfer of funds. He was to use this for his own expenses and from time to time to pay other agents.

On various occasions the German espionage heads abroad requested different types of information such as the number of airplanes manufactured, new developments in antiaircraft guns, methods of protecting American shipyards, and information concerning the sailings and arrivals of foreign and United States ships in American harbors. The information developed as a result of these requests by the various espionage agents and by Sebold himself was reviewed by representatives of the War Department, Navy Department, and the FBI prior to being sent to Germany. When being sent the information was either coded for radio transmission or microphotographs were made of it. In some instances the original documents were sent.

In December, 1940, Sebold rented an office in New York City and operated under the guise of a Diesel engineer. He held various meetings with espionage agents in his office which meetings were observed by Bureau Agents. The radio station which was set up by the FBI continued to operate until the case was broken. Over 300 messages were sent to Germany and approximately 200 received.

On June 29, 1941, it was announced that 29 individuals involved in the case had been detained and charged with the conspiracy to engage in espionage activities in the United States. Eighteen of these were in custody in the Metropolitan New York area, four were in custody in New Jersey, one in Michigan, and one in Wisconsin. Five other individuals had previously been taken into custody on other charges. Four other persons were subsequently arrested, making a total of 33. Prior to the commencement of the trial in September, 1941, 17 of the 33 subjects entered pleas of guilty to the charges filed against them; two others entered similar pleas during the course of the trial which concluded in December, 1941.

On January 2, 1942, the 33 persons involved in the case were sentenced in Federal Court in Brooklyn, New York, to total prison terms exceeding 320 years and were assessed fines of \$18,000.

In conducting an investigation of this magnitude it is necessary to have, and we are receiving, the whole hearted cooperation of local and state law enforcement agencies and also the loyal citizen. The investigation of the subverter, spy and saboteur should be in all instances handled by those properly qualified agencies, and Mr. Hoover is most anxious that no vigilante groups be set up in the United States. Such groups result only in embarrassment, hardships

and disgrace to many innocent and loyal citizens. The FBI, however, is anxious to receive and needs the whole hearted cooperation of the loyal citizens in trailing down this subversive element. We therefore feel that you can do your part and be of great assistance by reporting all information of a suspicious nature which comes to your attention and bearing on the internal security of this country directly to the nearest office of the FBI.

Selective Service System
Little Rock, Arkansas

Gentlemen:

Reference is made to your recent communication to Mr. Matthew F. Coquire, the former Assistant to the Attorney General, with regard to the Selective Service case of Mr. Gordon A. Nease, who is duly registered at your Board as Order Number 89. You will recall that deferment has been requested for him and as a result thereof, he has been placed in Class II-A.

Mr. Nease is still employed by this Bureau and it has been impossible to effect any replacement for him during the deferment period. As you have been previously advised, he has been in this Bureau since March 1, 1935, and is a trained Special Agent. In accordance with your request, I am transmitting herewith, D.S.S. Form 42-A (Revised) executed by me under date of January 7, 1943, requesting that he be granted additional occupational deferment. For your further information, in regard to Mr. Nease, he at the present time in his position as Special Agent possesses the highly specialized training and technical knowledge that make it impossible to effect his replacement at this time.

I want you to know that it is my desire to cooperate with your Board in every possible way, and in the event there is any additional information desired by you with regard to this case, please do not hesitate to call upon me. Of course, should there be any change in his occupational status with this Bureau, I shall promptly advise you.

Sincerely yours

John Edgar Hoover

INSTRUCTIONS: This form is to be filled out by an employer or other person who has knowledge of the registrant's eligibility for Class II deferment as a necessary man in his civilian occupation or activity. If the registrant is deferred, the employer must notify the Local Board promptly of any change in the registrant's job status, or if his employment is terminated.

The Federal Bureau of Investigation has been designated as the sole civilian government investigative agency having jurisdiction over the investigation of matters pertaining to national defense such as espionage, sabotage, registration of agents of foreign principals, sedition, treason, and the like, and further, the Federal Bureau of Investigation has sole investigative jurisdiction in a great number of other Federal statutes which embrace bank robbery, kidnaping, extortion, white slave traffic, National Motor Vehicle Theft Act, and numerous others. This Bureau has also been designated by Congress as the agency officially responsible for the tabulation and dissemination of police statistics for the entire country. Under an act of Congress these statistics are gathered and are distributed to thousands of interested police and affiliated agencies every six months so that trends in crime, crime records, and crime control can be known to those to whom it is of most interest. Further than this, the Federal Bureau of Investigation has been designated as the agency having jurisdiction over the classification and maintenance of fingerprint records not only on a national basis but on an international basis. The greatest depository of fingerprint records in the world is maintained by the Federal Bureau of Investigation in Washington, D. C. We have over fifty-eight million sets of fingerprints on hand today and are receiving fingerprint records at a rate of approximately 115,000 each day. The military and naval authorities have issued orders that all employees of manufacturing plants operating under contracts with the War Department or Navy Department must be fingerprinted and their fingerprints sent to the Federal Bureau of Investigation for search against our existing files. Obviously the purpose of such an order is to ascertain the criminal background, if any, of persons who are occupying positions where they have access to confidential information and to eliminate from such positions those persons whose records indicate that their interests are not those of our government.

We are also receiving fingerprint records of all persons enlisting or being inducted into the army and other military and naval services. All employees of the Federal government are fingerprinted and their fingerprints searched through our files for prior criminal records, again for the purpose of guarding against the employment of persons in the Federal government whose backgrounds indicate that they might not function to the best interests of our government. We are receiving thousands of criminal fingerprints from all police agencies throughout the country and it is essential that these fingerprints be handled promptly and the contributing agency advised of any prior record so that justice may be intelligently administered. By means of this procedure the Federal Bureau of Investigation is able to identify thousands of fugitives from justice each year who otherwise might not be identified by local police agencies who do not have the benefit of prior criminal records as reflected on fingerprint cards which were made at the time of some previous arrest. Many such persons are wanted for a previous criminal act by some other law enforcement agency and are presently attempting to disguise their true identity through assuming a fictitious name. This ruse on their part is penetrated through the science of fingerprinting and the Federal Bureau of Investigation is enabled to advise the interested local law enforcement agency of the true identity of the individual and he can be held for appropriate prosecutive action, whereas if not identified, he quite possibly would have been released to continue his depredations against society.

Our criminological laboratory handles the scientific examination of evidence in cases investigated by the Federal and local law enforcement agencies. A very high percentage of the work presently being performed by the Technical Laboratory is in connection with the national war effort. Evidence collected in suspected sabotage cases is examined by the scientists in our laboratory who are qualified to handle examinations of almost any technical nature. The personnel in the Technical

Laboratory have been trained through education and experience to handle such subjects as analytical chemistry, qualitative and quantitative analysis, ballistics tests, microanalysis examinations, spectrographic examinations, cryptograph and cryptanalysis work, and many other highly technical examinations.

The Files Section of the Federal Bureau of Investigation contains files on hundreds of thousands of individuals whose activities are of the greatest importance to the country today. It is highly important that we maintain in the Files Section a nucleus of experienced personnel so that the information contained therein can be made readily available to the supervisory personnel of this Bureau and also be made available to other governmental agencies such as the State Department, Military Intelligence Division, Office of Naval Intelligence, and the Immigration and Naturalization service. It is most essential that only the most trusted employees be assigned to this work because of the highly confidential material that is contained in our files.

All of the functions of the Federal Bureau of Investigation are so closely inter-related that it is essential that qualified and experienced personnel be available not only to perform their own work but to train new employees. The Congress of the United States has passed several bills within the past year approving an increase in the personnel. When it is considered that the work of this Bureau is highly confidential it can be appreciated that the selection of personnel must be made with great care. It has been our experience that only one employee is obtained from every one hundred persons who have applied. It is necessary that each employee be investigated thoroughly so that there will be no possibility of having a person in our service who is not loyal to the United States. We have found that it is extremely difficult to secure qualified persons for almost any of the positions that are available. At the present time we have approximately 1,500 employees less than the number that has been authorized by Congress. Every effort is being made to obtain these additional employees as they are badly needed in order for us to properly carry on the work that has been assigned to us. We are endeavoring to obtain these additional persons without interfering in any way with the administration of the Selective Training and Service Act. In all positions where possible we are utilizing the services of female employees. With the exception of Special Agents' and Laboratory Scientists' positions, no appointment of male employees who may be eligible for military service are being made. It is absolutely necessary, however, that our experienced personnel be maintained so that the new personnel can be adequately supervised and trained.

All employees of the Federal Bureau of Investigation have been working at top speed to keep abreast of our duties. The regular work week has been extended to 48 hours, and it has been our experience in the past that an additional amount of overtime will be voluntarily performed by the employees of this Bureau in an effort to properly and expeditiously handle the tremendous volume of important work being referred to us in connection with the war effort. Obviously very little consideration can be given to replacing an experienced employee until such time as we are able to build up our present staff to the number authorized and needed.

Special Agents of the Federal Bureau of Investigation are given twelve weeks of training which embraces 535 hours of study. During that period of time they are trained not only in investigative techniques and procedures, but are qualified in the handling of firearms, mechanical devices, and technical devices in use by the Bureau. After entering the Field service which follows their training period, their skill of course increases with their length of service in the Field. It would

obviously, therefore, be impossible to adequately replace an experienced Special Agent until the replacement had been in the service an equal length of time.

The science of the classification of fingerprints is one of the most exacting in the world today. Employees in law enforcement organizations handling fingerprint activities are of a profession which demands the utmost skill and honesty in the practice of that profession. In the Federal Bureau of Investigation we train Fingerprint Technicians through classroom and practical study for a period of approximately six months. At the end of that time those employees are qualified to examine sets of fingerprints and to identify like sets. This science cannot be taught overnight and the loss of a fingerprint man at any stage of his training or employment is a severe blow to the Federal Bureau of Investigation at this time when we are receiving thousands of sets of prints from all of the coordinated activities of the Government and from local law enforcement agencies.

The Laboratory Scientists of the Federal Bureau of Investigation, all graduate scientists, are thoroughly schooled in the science of criminology and today are performing duties pertaining to the successful war effort one hundred percent of their time. Their training in this field, embracing all sciences of laboratory examination which includes cryptography, chemistry, ballistics, geology, serology, and many others, has been invaluable in the solving of espionage, sabotage, and other subversive activities. It is essential that these scientists many times perform their scientific work in the field under such conditions that they could not be replaced with employees not possessing their physical attributes.

Bureau employees in positions aforementioned and for whom deferments are requested possess technical and scientific skills which renders them irreplaceable to the Federal Bureau of Investigation at this time.

I, J. Edgar Hoover, do solemnly swear (or affirm) that I am the Director of the Federal Bureau of Investigation and that the foregoing statements are true to the best of my knowledge and belief.

Director, FBI

Dear Sir:

Reference is made to Bureau letter dated January 15, 1943, to Local Board C, Selective Service, Little Rock, Arkansas, relative to the draft status of Special Agent GORDON A. NEASE.

Four of the five members of Local Board C were present at a meeting on January 18, 1943, at which time they were interviewed by Special Agent J. R. CALHOUN of the Little Rock Field Division. These members, Messrs. GORDON H. CAMPBELL, Chairman, ROBERT A. COOK, W. I. MOODY and C. R. BOYER voted unanimously to place Special Agent NEASE in Class 2-B for an additional six months. //

It was learned that this Board previously had placed Mr. NEASE in Class 2-A, but the members, after checking the classification definitions, determined that 2-B was proper.

Very truly yours,

Dear Sir:

For inclusion in the fund to be paid to the widow or designated beneficiary of any Special Agent of the Federal Bureau of Investigation, United States Department of Justice, who has contributed to this fund subsequent to September 4, 1942, and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - ~~MONEY ORDER~~) the sum of five dollars (\$5), made payable to the Chief Clerk of said Bureau, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund, which I understand is to be administered in the following manner:

The Director of the Bureau will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping, and expending of said fund, which committee will recommend appropriate action to the Director of the Bureau in pertinent matters. The Chief Clerk of said Bureau shall receive all contributions and account for same to the Director.

Upon the death of any Special Agent, the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Chief Clerk, directing him to pay to the designated beneficiary the sum of \$5,000.

DEFERRED BY REASON OF OCCUPATION

622.21 *Class II-A: Man necessary in his civilian activity.*—(a) In Class II-A shall be placed any registrant found to be a "necessary man" in any industry, business, employment, agricultural pursuit, governmental service, or any other service or endeavor, or in training or preparation therefor, the maintenance of which is essential to the national health, safety, or interest.

(b) Class II-A deferments shall be for the period of 6 months or less as may be deemed necessary to secure or train a replacement for the registrant. If there is a change in the registrant's status during the period of his deferment in Class II-A, his classification shall be reopened and considered anew. At the expiration of the period of the registrant's deferment in Class II-A, his classification shall be reopened, and he shall be classified anew. When the registrant is classified anew, he shall not be again placed in Class II-A unless such classification is warranted, and in addition, the registrant or the registrant's employer convinces the local board, or the board of appeal (if an appeal is taken), or the President (if an appeal is permitted and is taken) that a reasonable but unsuccessful effort has been made during the period of deferment to secure or to train a replacement. If these conditions are met, and the registrant is again placed in Class II-A, such further deferment shall be for the period of 6 months or less as may be deemed necessary to secure or train a replacement. The same rule shall be applied when again classifying such a registrant at the end of each successive period for which he has been classified in Class II-A.

622.22 *Class II-B: Man necessary to the war production program.*—(a) In Class II-B shall be placed any registrant found to be a "necessary man" in any industry, business, employment, agricultural pursuit, governmental service, or in any other service or endeavor, or in training or preparation therefor, the maintenance of which is necessary to the war production program.

(b) Class II-B deferments shall be for a period of 6 months or less. If there is a change in the registrant's status during the period of deferment in Class II-B, his classification shall be reopened and considered anew. At the expiration of the period of the registrant's deferment in Class II-B, his classification shall be reopened, and he shall be classified anew. In again classifying the registrant, care should be taken not to impede the war production program. The registrant should be again classified in Class II-B for a period of 6 months or less if such classification is warranted and if the registrant's employer has made a reasonable but unsuccessful effort to secure or train a replacement for the registrant during the period of deferment. The same rule shall be applied when again classifying such a registrant at the end of each successive period for which he has been classified in Class II-B.

622.23 *General rules for classification in Class II-A and Class II-B.*—(a) On the local board is placed the primary responsibility of deciding which men should be deferred because of their civilian activities. It is in the national interest and of paramount importance to our national defense that civilian activities which are directly contributing to the war effort or which are otherwise essential to the national health, safety, or interest should be maintained where possible, consistent with the fundamental purposes of the Selective Training and Service Act of 1940, as amended.

(b) No deferment from training and service shall be made in the case of any individual except upon the basis of the status of such individual, and no deferment shall be made of individuals by occupational groups or groups of individuals in any plant or institution.

(c) The local board may avail itself of the assistance of all Federal, State, or local agencies (such as the Office of Production Management, Labor Supply Committees, State and Federal employment services, State occupational advisors, county agricultural agents, or others) to obtain information in cases of occupational deferments.

622.24 *"Necessary man" defined.*—A registrant shall be considered a "necessary man" in industry, business, employment, agricultural pursuit, governmental service, or in any other service or endeavor, including training or preparation therefor, only when all of these conditions exist: (1) He is, or but for a seasonal or temporary interruption would be, engaged in such activity; (2) he cannot be replaced because of a shortage of persons with his qualifications or skill in such activity; and (3) his removal would cause a serious loss of effectiveness in such activity.

Dear Miss Bowers:

Reference is made to your communication of June 16, 1943, with regard to the Selective Service case of Mr. Gordon A. Nease, who is duly registered at your Board as Order Number 89. You will recall that as a result of my previous request for occupational deferment, he has been placed in Class II-B until July 22, 1943.

In accordance with Section III of Executive Order 9309, the Review Committee on Deferment of Government employees of the War Manpower Commission has advised the Agency Committee of the Federal Bureau of Investigation that they have approved the position which this registrant holds as one of the key positions in the Bureau. Accordingly, the Agency Committee requests occupational deferment for Mr. Nease. In accordance with your request, I am transmitting herewith D.S.S. Form 42-A (Revised) which has been executed by me under date of June 23, 1943.

Under the provisions of Executive Order 9309, Section II, Paragraphs 2 and 3, the Chairman of the War Manpower Commission has approved a Regional Committee for the Federal Bureau of Investigation. This request for occupational deferment by this Bureau has been reviewed and approved by the Agency Committee in question.

SPECIAL AGENTS

The Federal Bureau of Investigation has been designated as the sole civilian government investigative agency having jurisdiction over the investigation of matters pertaining to national defense such as espionage, sabotage, registration of agents of foreign principals, sedition, treason, and the like, and further, the Federal Bureau of Investigation has sole investigative jurisdiction in a great number of other Federal statutes which embrace bank robbery, kidnaping, extortion, white slave traffic, National Motor Vehicle Theft Act, and numerous others. The investigative work in connection with the above violations is performed by the Special Agent personnel of this Bureau, who are recruited from applicants between the ages of twenty-three and forty. They must be graduates of a law school or an accounting school with the necessary accounting experience, or graduates of a university with extensive investigative experience, or with linguistic qualifications, or have basic educational training and possess satisfactory prior law enforcement experience which will enable them to satisfactorily perform the duties imposed upon them. For certain of the scientific investigative work, Special Agents are secured who primarily are qualified in the sciences, such as ballistics, chemical analysis, spectography, cryptography, mineralogy, metallography, toxicology, and other like sciences. Applicants for appointment to the position of Special Agent must meet the physical standards and requirements for this position, which are exceedingly high. They must have vision of no less than 20/40 in one eye, 20/50 uncorrected, both eyes to be corrected to 20/20. They must have no color deficiency whatever.

Special Agents of the Federal Bureau of Investigation undergo a rigorous training program. All newly appointed Special Agents in the Federal Bureau of Investigation attend training classes for a period of sixteen weeks; the hours of training are from 9:00 a.m. to 9:00 p.m. daily, which course of study is equivalent to two full years of college study. During this period of training, they are thoroughly instructed in the basic rules and regulations and jurisdictions of the Federal Bureau of Investigation. They must satisfactorily pass numerous written examinations during their period of training. If a trainee fails to pass any of these examinations, he is dropped from the school.

The duties of a Special Agent of the Federal Bureau of Investigation are most arduous. They must be available at a moment's notice to go to any part of the United States or to any assignment outside the United States. The hours of duty for these employees are such that they must be in excellent physical health. The average work week for a Special Agent of the Federal Bureau of Investigation is no less than seventy hours. The work of a Special Agent, regardless of his particular qualification, is such that he cannot lead a sedentary or well regulated life. Due to the small number of Special Agents of the Federal Bureau of Investigation presently handling the work under the jurisdiction of the Federal Bureau of Investigation within and without the continental United States, it is necessary that the entire staff be highly mobile.

Special Agents are required to be able to conduct investigations in more than 100 types of cases, including espionage, sabotage, subversive activities, frauds against the government, kidnaping, extortion, bank robbery, White Slave

Traffic Act, etc. They are trained in and required to maintain constant skill in the use of highly technical equipment, technical processes, such as those necessary for the development of latent fingerprints, concealed or obliterated numbers upon firearms, to understand the use of code messages, to conduct physical surveillances of subjects of espionage and similar cases, sometimes for periods of many months, and when necessary, to assume a necessary character to enable them to fit in an undercover capacity into the activities and operations of groups such as foreign agents, who are engaged in thwarting the war effort.

The arduousness and importance of the work of Special Agents of the Federal Bureau of Investigation was readily recognized by the military and naval leaders. The Chief of the Bureau of Navigation, for the Secretary of the Navy, requested Special Agent employees of the Federal Bureau of Investigation to submit their resignations from reserve commissions held by them in the naval services because it had been determined that those Special Agents could better serve their country in their present assignments than if they were to be called into active naval service. The Secretary of War, in 1942, addressed personal communications to 168 Special Agents of the Federal Bureau of Investigation who at that time held reserve commissions in the Army. The Secretary of War at that time advised the Special Agents that their employment in the FBI is of such vital importance to the national defense as to necessitate their remaining at their posts of duty despite the fact that they held reserve commissions in the United States Army, and the request was made that these Agents, through the proper channels, submit their resignations from their commissions.

General Lewis B. Hershey of the Selective Service System pointed out in his Directive to all Local Boards of December 29, 1941, that Special Agent positions of the FBI were most important and essential to the national health, safety, and interests, and that the national defense functions of the FBI should not be impaired by the removal of trained personnel from critical positions in the Bureau.

The position of Special Agent has always been considered the most critical of all positions in the FBI, since, with the tremendous bulk of work placed upon us due to the war emergency, it is essential that a trained qualified staff be available for the handling of this work. If the Federal Bureau of Investigation cannot continue to retain its personnel in this critical position, aid and comfort would most certainly be given to the enemy and others whose interests are inimical to the best interests of the country today. Up to the present time the full complement of Special Agent personnel has not been secured and every effort is being made to secure the necessary additional Special Agent personnel.

I, J. Edgar Hoover, do solemnly swear (or affirm) that I am the Director of the Federal Bureau of Investigation and that the foregoing statements are true to the best of my knowledge and belief.

Subscribed and sworn to before me this 28th day of June 1943

Dear Sir:

For inclusion in the fund to be paid to the widow or designated beneficiary of any Special Agent of the Federal Bureau of Investigation, United States Department of Justice, who has contributed to this fund subsequent to January 15, 1943, and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of five dollars (\$5), made payable to the Chief Clerk of said Bureau, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund, which I understand is to be administered in the following manner:

The Director of the Bureau will appoint a committee which shall consider all matters pertaining to the acquisition, safe-keeping and expending of said fund, which committee will recommend appropriate action to the Director of the Bureau in pertinent matters. The Chief Clerk of said Bureau shall receive all contributions and account for same to the Director.

Upon the death of any Special Agent, the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Chief Clerk, directing him to pay to the designated beneficiary the sum of \$5,000.

Appeal Procedure

Any person entitled to do so may take an appeal to the board of appeal within 10 days after the above date of mailing of Notice of Classification to registrant in either of the following ways:

- (1) By filing with the local board a written notice of appeal. Such notice need not be in any particular form but must state the name of the registrant and the name and identity of the person appealing so as to show the right of appeal.
- (2) By signing the "Appeal to Board of Appeal" on the Selective Service Questionnaire (Form 40).

When an appeal is taken from the classification or reclassification of a registrant and when such appeal is upon the ground that the registrant should have been deferred by reason of his occupation, the appeal shall be transferred to the board of appeal having jurisdiction over the area in which the registrant is employed, provided all of the following conditions are met (but not otherwise):

- (1) The first person to appeal from such classification or reclassification files with his appeal a written request for such transfer;
- (2) The written request states in what respect an occupational question is involved; and
- (3) The written request states the name of the registrant's employer and the street address, county, and State where the registrant is employed.

The person appealing may attach to his notice of appeal or to the Selective Service Questionnaire (Form 40) a statement specifying the respects in which he believes the local board failed to give direct attention to any information in the registrant's file which he believes the local board has failed to consider or give sufficient weight, and may set out in full any information which was offered to the local board and which the local board failed or refused to include in the registrant's file.

Appeal to the President from classification by the board of appeal may be taken at any time within 10 days after the date of mailing of notice to registrant, provided the registrant was classified by the board of appeal in either Class I-A, Class I-AB, Class IV-E and one or more members of the board of appeal dissented from such classification. Otherwise, the decision of the board of appeal is final except when an appeal is taken to the President either by the State Director of Selective Service or the Director of Selective Service on the ground that he deems it to be in the national interest or necessary to avoid an injustice.

Mr. Nease is a Special Agent and as such holds a key position as designated by the Review Committee of the War Manpower Commission within the meaning of Executive Order 9309. The performance of his duties is essential and critical to the execution of the work assigned by law and Executive Directive to the Federal Bureau of Investigation.

To the Federal Bureau of Investigation is assigned the responsibility of investigating all acts of espionage, sabotage and all actions tending to undermining the internal security of the nation. We must also investigate and enforce all those federal statutes assigned to the investigative jurisdiction of this Bureau such as: bank robbery, kidnaping, interference with the interstate transportation of goods, National Stolen Property Act, White Slave Traffic Act, etc., the enforcement of which is necessary to the preservation of the national health, safety and interest.

To carry on this work it is necessary to maintain a corps of trained investigators. Mr. Nease is such a trained investigator. In the attached Form 42 S further information relative to Mr. Nease is set forth.

SPECIAL AGENTS

This position has been designated as a key position by the Review Committee of the War Manpower Commission.

The Federal Bureau of Investigation has been designated as the sole civilian government investigative agency having jurisdiction over the investigation of matters pertaining to national defense such as espionage, sabotage, registration of agents of foreign principals, sedition, treason, and the like, and further, the Federal Bureau of Investigation has sole investigative jurisdiction in a great number of other Federal statutes which embrace bank robbery, kidnaping, extortion, white slave traffic, National Motor Vehicle Theft Act, and numerous others. The investigative work in connection with the above violations is performed by the Special Agent personnel of this Bureau, who are recruited from applicants between the ages of twenty-three and forty. They must be graduates of a law school or an accounting school with the necessary accounting experience, or graduates of a university with extensive investigative experience, or with linguistic qualifications, or have basic educational training and possess satisfactory prior law enforcement experience which will enable them to satisfactorily perform the duties imposed upon them. For certain of the scientific investigative work, Special Agents are secured who primarily are qualified in the sciences, such as ballistics, chemical analysis, spectography, cryptography, mineralogy, metallography, toxicology, and other like sciences. Applicants for appointment to the position of Special Agent must meet the physical standards and requirements for this position, which are exceedingly high. They must have vision of no less than 20/40 in one eye, 20/50 uncorrected, both eyes to be corrected to 20/20. They must have no color deficiency whatever.

Special Agents of the Federal Bureau of Investigation undergo a rigorous training program. All newly appointed Special Agents in the Federal Bureau of Investigation attend training classes for a period of sixteen weeks; the hours of training are from 9:00 a.m. to 9:00 p.m. daily, which course of study is equivalent to two full years of college study. During this period of training, they are thoroughly instructed in the basic rules and regulations and jurisdictions of the Federal Bureau of Investigation. They must satisfactorily pass numerous written examinations during their period of training. If a trainee fails to pass any of these examinations, he is dropped from the school.

The duties of a Special Agent of the Federal Bureau of Investigation are most arduous. They must be available at a moment's notice to go to any part of the United States or to any assignment outside the United States. The hours of duty for these employees are such that they must be in excellent physical health. The average work week for a Special Agent of the Federal Bureau of Investigation is no less than seventy hours. The work of a Special Agent, regardless of his particular qualification, is such that he cannot lead a sedentary or well regulated life. Due to the small number of Special Agents of the Federal Bureau of Investigation presently handling the work under the jurisdiction of the Federal Bureau of Investigation within and without the continental United States, it is necessary that the entire staff be highly mobile.

Special Agents are required to be able to conduct investigations in more than 100 types of cases, including espionage, sabotage, subversive activities, frauds against the government, kidnaping, extortion, bank robbery, White Slave

Traffic Act, etc. They are trained in and required to maintain constant skill in the use of highly technical equipment, technical processes, such as those necessary for the development of latent fingerprints, concealed or obliterated numbers upon firearms, to understand the use of code messages, to conduct physical surveillances of subjects of espionage and similar cases, sometimes for periods of many months, and when necessary, to assume a necessary character to enable them to fit in an undercover capacity into the activities and operations of groups such as foreign agents, who are engaged in thwarting the war effort.

The arduousness and importance of the work of Special Agents of the Federal Bureau of Investigation was readily recognized by the military and naval leaders. The Chief of the Bureau of Navigation, for the Secretary of the Navy, requested Special Agent employees of the Federal Bureau of Investigation to submit their resignations from reserve commissions held by them in the naval services because it had been determined that those Special Agents could better serve their country in their present assignments than if they were to be called into active naval service. The Secretary of War, in 1942, addressed personal communications to 168 Special Agents of the Federal Bureau of Investigation who at that time held reserve commissions in the Army. The Secretary of War at that time advised the Special Agents that their employment in the FBI is of such vital importance to the national defense as to necessitate their remaining at their posts of duty despite the fact that they held reserve commissions in the United States Army, and the request was made that these Agents, through the proper channels, submit their resignations from their commissions.

General Lewis B. Hershey of the Selective Service System pointed out in his Directive to all Local Boards of December 29, 1941, that Special Agent positions of the FBI were most important and essential to the national health, safety, and interests, and that the national defense functions of the FBI should not be impaired by the removal of trained personnel from critical positions in the Bureau.

The position of Special Agent has always been considered the most critical of all positions in the FBI, since, with the tremendous bulk of work placed upon us due to the war emergency, it is essential that a trained qualified staff be available for the handling of this work. If the Federal Bureau of Investigation cannot continue to retain its personnel in this critical position, aid and comfort would most certainly be given to the enemy and others whose interests are inimical to the best interests of the country today. Up to the present time the full complement of Special Agent personnel has not been secured and every effort is being made to secure the necessary additional Special Agent personnel.

I, J. Edgar Hoover, do solemnly swear (or affirm) that I am the Director of the Federal Bureau of Investigation and that the foregoing statements are true to the best of my knowledge and belief.

Subscribed and sworn to before me this 1st day of January 19 44

Dear Sir:

For inclusion in the fund to be paid to the widow or designated beneficiary of any Special Agent of the Federal Bureau of Investigation, United States Department of Justice, who has contributed to this fund subsequent to December 18, 1943, and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of ten dollars (\$10.00), made payable to the Chief Clerk of said Bureau, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund, which I understand is to be administered in the following manner:

The Director of the Bureau will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director of the Bureau in pertinent matters. The Chief Clerk of said Bureau shall receive all contributions and account for same to the Director.

Upon the death of any Special Agent, the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Chief Clerk, directing him to pay to the designated beneficiary the sum of \$10,000.

The following person is hereby designated as my beneficiary:

Name MADLINE OWEN NEASE Address PRESIDENTIAL GARDENS, ALEXANDRIA, VA.

MEMORANDUM FOR THE DIRECTOR

On Friday and Saturday of the past week, I attended the two-day Inspection Procedure Training Course. This course was attended by approximately twenty-four field Agents and Bureau supervisors, and was most interesting and instructive. The entire course was under the close personal supervision of Assistant Director Clegg who was ably assisted by Mr. Hince. Without exception, all those in attendance appeared to be exceptionally interested in the course and are looking forward to the experience of assisting an Inspector on a field office inspection. I believe that this course is well worthwhile and will be of considerable benefit to all those participating therein.

RE. G. A. NEASE

Attached is a chart showing the present grade and salary of the employees of the Director's Office, together with the date of the latest salary increases, and the date of the next possible increases under the Ramspeck Act.

There are also shown the job vacancies presently existing in this office.

You may be interested in knowing that within the past two years, all positions within this office have been reallocated one grade higher with an attendant increase in salary with the exception of those of Miss Beahm and Miss Teller and the writer. However in the case of

these two employees have been given a \$100 meritorious increase in salary, and it is hoped that these two positions can be eventually reallocated. I believe that all these promotions were well deserved.

5 FEB 21 1944

I have compiled this information for my ready reference and thought you might desire to look it over.

Set me know if it is possible to grant Nease a meritorious increase & then the Ramspeck increase on Apr. 1. This would ultimately raise him

Dear Mr. Hoover,

It is with a deep sense of appreciation and gratitude that I acknowledge receipt of your letter today advising me of a meritorious increase in salary. The monetary consideration to me is secondary. The important thing, and that which is most gratifying to me, is to know that my efforts have met with your approval, and you can be assured that I shall continue to put forth every effort to perform whatever duties you may see fit to assign me.

Gentlemen:

Reference is made to the Selective Service case of Mr. Gordon A. Nease, who is registered at your Board as Order Number C. You will recall that deferment was previously requested for this registrant by reason of the fact that he holds the position of Special Agent; however, you have recently placed him in class I-A.

Under the provisions of Executive Order 9309, Section II, Paragraphs 2 and 3, the Chairman of the War Relocation Commission has approved a Regional Committee for the Federal Bureau of Investigation. This request for occupational deferment by this Bureau has been reviewed and approved by the Agency Committee, and the Agency Committee has approved our request for an appeal of your classification in this case.

In view of the fact that Mr. Nease occupies a position in this Bureau that has been designated as a key position by the Review Committee on Deferment of Government Employees of the War Relocation Commission and as it is not possible at this time to secure a replacement for him, it is requested that you consider this letter as a formal request for an appeal.

The principal place of employment of this registrant is Washington, D. C.

Sincerely yours,

John Edgar Hoover

RE: SPECIAL AGENT GORDON A. NEASE

Dear Sir:

During the inspection of the Syracuse Field Division, Special Agent Gordon A. Nease assisted the writer. Mr. Nease was utilized primarily in connection with the physical condition and maintenance of the office, including inspection of two resident agencies and the contacting of individuals of prominence in the cities where those resident agencies were located. He also assisted in a portion of the inspection concerning administrative operations.

Prior to the inspection, Mr. Nease reviewed personnel files and talked with Bureau officials concerning the situation at the Syracuse Field Division, advising the writer of observations made as a result of this work. This was of considerable value in obtaining an over-all picture of the situation as reflected at the Bureau Headquarters and assisted the writer in the actual conduct of the inspection.

Mr. Nease was quite interested in his assignment and handled his work in an intelligent and entirely satisfactory manner. His services were of distinct value in connection with the inspection.

Very truly yours,

Appeal Procedure

Any person entitled to do so may take an appeal to the board of appeal within 10 days after the above date of mailing of Notice of Classification to registrant in either of the following ways:

- (1) By filing with the local board a written notice of appeal. Such notice need not be in any particular form but must state the name of the registrant and the name and identity of the person appealing so as to show the right of appeal.
- (2) By signing the "Appeal to Board of Appeal" on the Selective Service Questionnaire (Form 40).

The person appealing may attach to his notice of appeal or to the Selective Service Questionnaire (Form 40) a statement specifying the respects in which he believes the local board erred, may direct attention to any information in the registrant's file which he believes the local board has failed to consider or give sufficient weight, and may set out in full any information which was offered to the local board and which the local board failed or refused to include in the registrant's file.

Appeal to the President from classification by the board of appeal may be taken at any time within 10 days after the date of mailing of notice to registrant, provided the registrant was classified by the board of appeal in either Class I-A, Class I-A-O, or Class IV-E and one or more members of the board of appeal dissented from such classification. Otherwise, the decision of the board of appeal is final except when an appeal is taken to the President either by the State Director of Selective Service or the Director of Selective Service on the ground that he deems it to be in the national interest or necessary to avoid an injustice.

SUBJECT: GORDON A. NEASE
SAA - Director's Office
CAF-12, \$4800
Automatic Promotion

DATE 3/10/44

Special Agent Nease entered on duty on 11/1/38, was reallocated to CAF-12, \$4600 per annum on 10/1/41, and on 2/16/44 was afforded a meritorious promotion to \$4800 for outstanding services in the performance of duties which further the successful war effort. He is eligible for a \$200 increase under the provisions of the Uniform Promotion Act as of 4/1/44.

Nease was rated EXCELLENT on the 1942 and 1943 annual efficiency reports. There is no derogatory information in his file since 3/31/43.

RECOMMENDATION:

It is recommended that Agent Nease be granted a \$200 increase under the provisions of the Uniform Promotion Act effective 4/1/44. If approved, his salary will be \$5000.

MEMORANDUM FOR THE DIRECTOR

As you are aware, I assisted Assistant SAC Arthur H. Crowl in the inspection of the Syracuse Field Office during the week of 27th and I wish to state that this was one of the most interesting and instructive week's work I ever recalled having performed. I think the program of permitting certain Bureau personnel to assist on such inspections is indeed well founded. Of course, the first time one assists on such an inspection, it is necessary for him to learn the procedure, etc., and I believe that if the opportunity is afforded the same personnel to assist on additional inspections, their value to the Inspector would increase materially.

Respectfully submitted,

G.A. Nease

MR. TOLSON

Reference is made to the Director's memorandum of January 11, 1944, requesting that the names of Special Agents be submitted who are potentially qualified for the position of Special Agent in Charge.

At this time I recommend Special Agent (A) Augustus K. Bowles, III, who is presently assigned to the Identification Division.

Special Agent (A) Bowles entered on duty in the Bureau as a clerical employee on July 28, 1936. He was appointed a Special Agent June 5, 1939 and is presently in Grade CAF-12, drawing a salary of \$4600.

This Agent is outstanding in every respect. He makes an excellent personal appearance, has an excellent personality, has administrative qualifications above average and potential executive ability that will increase with experience. He makes a good talk, is a good lecturer, assumes responsibility, and above all he gets things done in a quiet, efficient manner. In spite of his quiet, reserved manner he is an aggressive and alert individual.

In the near future a recommendation will be made suggesting his reassignment to the field as he has been at the Seat of Government sufficiently long and he can benefit more and be of greater future value to the Bureau by having additional field experience. I feel he is qualified at the present time to assume the duties of the position of Number One Man in any medium size or small office.

There are no other Agent Supervisors in the Identification Division at the present time who are in my opinion of SAC caliber although there are several who are developing rapidly.

Inasmuch as a copy of the memorandum of January 11, 1944 was not designated to include the Director's Office and feeling that office might be overlooked, I would like to suggest that Special Agent (A) Gordon A. Nease be considered in connection with the Bureau's long range program for the development of Special Agents for administrative and executive positions in the future. I have known Mr. Nease for a considerable period of time and he possesses both administrative and executive ability. He has mature judgment, is sincere and extremely loyal. While he could benefit by additional field training, I feel that his present assignment has been of such benefit to his development that he has gained a greater and broader knowledge than had he been retained in the field. He has definite possibilities and I do not think he should be overlooked.

Respectfully,

S. J. Tracy

Dear Sir:

For inclusion in the fund to be paid to the widow or designated beneficiary of any Special Agent of the Federal Bureau of Investigation, United States Department of Justice, who had contributed to this fund subsequent to April 15, 1944, and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of ten dollars (\$10.00), made payable to the Chief Clerk of said Bureau, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund, which I understand is to be administered in the following manner:

The Director of the Bureau will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director of the Bureau in pertinent matters. The Chief Clerk of said Bureau shall receive all contributions and account for same to the Director.

Upon the death of any Special Agent, the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Chief Clerk, directing him to pay to the designated beneficiary the sum of \$10,000.

Re: GORDON A. NEASE - SPECIAL AGENT
INSPECTION - RICHMOND OFFICE
JUNE 12 to JUNE 21, 1944

Dear Sir:

Special Agent GORDON A. NEASE assisted me in the recent inspection of the Richmond Office, and I wanted to advise the Bureau concerning his qualifications in connection with this assignment.

Mr. NEASE does a splendid job in inspection work. He is definitely interested in this phase of the Bureau's activities, has evidently devoted considerable thought to the problems involved, has an excellent background for the work, and during the inspection, applied himself vigorously in assisting me. He is very careful and painstaking, is extremely thorough, and his approach to the work is everything that it should be.

I believe that Mr. NEASE should be used on as many of these assignments as possible, because of the splendid manner in which he does this type of work. During the inspection of the Richmond Office, he examined the automobiles, assisted in the physical inspection of the office, worked with me in preparing the charts on pending work, gave the stenographic test, handled some phases of the administrative operations of the office, and, in his discussions with me concerning delinquencies found, exercised excellent judgment in appraising the extent of the delinquencies. At the Agents' Conference, in addition to a somewhat lengthy talk which I gave concerning the work of the Bureau during wartime and the delinquencies found in the office, Mr. NEASE gave an excellent summarization of his findings during the inspection.

Mr. NEASE also handled some of the personnel interviews; and again, in my opinion, he did a splendid job. He also reviewed a

great many pending and closed files in the study made of the investigative operations of the office. He has a good background for this type of work, and his criticisms in each instance were intelligent and quickly arrived at.

As indicated above, it is my recommendation that he be used as much as possible for this type of assignment.

Director
Federal Bureau of Investigation
United States Department of Justice
Washington, D. C.

Dear Sir:

For inclusion in the fund to be paid to the widow or designated beneficiary of any Special Agent of the Federal Bureau of Investigation, United States Department of Justice, who had contributed to this fund subsequent to August 31, 1944, and who dies ^{Cash.} from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by ~~CHECK - MONEY ORDER~~) the sum of ten dollars (\$10.00), made payable to the Chief Clerk of said Bureau, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund, which I understand is to be administered in the following manner:

The Director of the Bureau will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director of the Bureau in pertinent matters. The Chief Clerk of said Bureau shall receive all contributions and account for same to the Director.

Upon the death of any Special Agent, the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Chief Clerk, directing him to pay to the designated beneficiary the sum of \$10,000.

The following person is hereby designated as my beneficiary:

This is to advise that Supervisor G. A. Nease informed ☐ on the above date that he suffered a fracture to his right little finger during a regularly scheduled gymnasium period on November 18, 1944. Mr. Nease stated that he believes the injury occurred when he was struck on the finger by the hand of another Agent while both men were participating in the same class activity.

Mr. Nease further informed that he went to Public Health on November 23, 1944, where the injury was diagnosed as set forth above.

MEMORANDUM FOR THE DIRECTOR

Re: Dictographs

In view of the almost continuous difficulty we have been encountering with the dictograph sets within the past few days, I would like to again reiterate my previous suggestion as is set forth in detail in the last three serials of the attached file, 66-3144, namely, that one of the Laboratory technicians be allowed to make a study of the dictograph setup in the Bureau in order that he can repair the dictograph sets in emergencies. This suggestion is not intended to mean that the Laboratory would be responsible for the maintenance of the dictograph sets, but, simply, to make emergency adjustments when regular dictograph people are not available. It appears that it is practically impossible to find what the trouble is when the set goes out of commission unless the repairman can come in when the trouble is actually on the wire. As a general rule, the trouble has cleared up by the time the man gets here. It is believed if we had someone in the Bureau who could immediately check on the Director's set when the trouble is encountered, the trouble might eventually be eliminated entirely.

The dictograph man has been in twice this morning and he has been contacted to come in again. The first time he came in, the trouble encountered last night had cleared up and he could only surmise what might be wrong. The second time the trouble was actually on the wire and he surmised it was the microphone in the amplifier, which he exchanged. I do know that the more experienced repairmen formerly with the Dictograph Company are no longer with them, and it simply appears that their present corp of repairmen are incompetent. They practically admitted as much. Further, they have so few men at this time that it sometimes takes hours to get one in when we have trouble.

In view of the above factors, it is strongly urged that a Laboratory man familiarize himself with the dictographs in order that he might assist in emergencies in keeping these instruments in repair. It should not be necessary for him to spend but a small portion of his time in this type of work. When this matter was previously considered before the Executive Conference, it was the opinion of that Conference that the Bureau should get along as best it can under the existing dictograph service contract until after the war, but if we expect to continue using the dictographs, it is not believed this is a practical solution to our problem at this time.

Respectfully,

G. A. Nease

SUBJECT: NEASE, GORDAN A.
(Director's Office)

The above Special Agent reported to the Health Service on the 18th inst. that he had injured fourth finger of right hand in gymnasium. He was given treatment and when called on the 20th inst. was advised of Public Health privileges.

Mr. Nease came to the Health Service on the 23rd inst. complaining that finger was quite sore and not flexible. He was given Form CA-16 and went to Public Health, where finger was x-rayed, x-ray showing fracture of finger. Cast was applied and Mr. Nease is being advised by Dr. Gardner regarding his return to Public Health.

Appeal Procedure

Any person entitled to do so may take an appeal to the board of appeal within 10 days after the above date of mailing of Notice of Classification to registrant in either of the following ways:

- (1) By filing with the local board a written notice of appeal. Such notice need not be in any particular form but must state the name of the registrant and the name and identity of the person appealing so as to show the right of appeal.
- (2) By signing the "Appeal to Board of Appeal" on the Selective Service Questionnaire (Form 40).

The person appealing may attach to his notice of appeal or to the Selective Service Questionnaire (Form 40) a statement specifying the respects in which he believes the local board erred, may direct attention to any information in the registrant's file which he believes the local board has failed to consider or give sufficient weight, and may set out in full any information which was offered to the local board and which the local board failed or refused to include in the registrant's file.

Appeal to the President from classification by the board of appeal may be taken at any time within 10 days after the date of mailing of notice to registrant, provided the registrant was classified by the board of appeal in either Class I-A, Class I-A-O, or Class IV-E and one or more members of the board of appeal dissented from such classification. Otherwise, the decision of the board of appeal is final except when an appeal is taken to the President either by the State Director of Selective Service or the Director of Selective Service on the ground that he deems it to be in the national interest or necessary to avoid an injustice.

Dear Sir:

In accordance with the Bureau's instructions, the purpose of this communication is to advise the Bureau of the efficiency of Mr. NEASE who assisted me in connection with the Denver Inspection from August 21 to 31, 1944.

Mr. NEASE's experience in the administrative details of a field office has, of course, been limited and he required some guidance and suggestions. His work, however, was very thorough and he was most sincere and was particularly interested in acquainting himself with the functions of a field office.

His volume of work during the Inspection was very good and he put in very long hours during the evenings and assisted me in completing the Inspection at the earliest possible date.

I noted particularly that Mr. NEASE's evaluation of matters is extremely good. He also was above average in his personnel interviews and rapidly and accurately sized up personnel during his interviews.

Very truly yours,

Mr. Gordon A. Nease
Federal Bureau of Investigation
Washington 25, D. C.

Dear Mr Nease:

The Bureau is in receipt of the report of the physical examination afforded you at the United States Naval Hospital, Bethesda, Maryland, on December 29, 1944.

This report reflects the following physical defects:

Defective vision i. the left eye 20/40 - right
eye 20/25; corrected to 20/20 in each eye.
Sinusitis
Deviated nasal septum
Chronic bronchitis

The Board of Examining Physicians makes the following recommendations:

Nose operation
Vaccination for smallpox
Inoculation for typhoid
Inoculation for tetanus

It reports that you are capable of performing strenuous physical exertion, and have no physical defects that would interfere with your participation in raids or other work involving the practical use of firearms.

Sincerely yours,

J. E. Hoover

Dear Mr. Hoover:

I have received your letter and the Ten Year Service Award Key marking the completion of my tenth year of service in this Bureau under your leadership. I can only say that I am deeply grateful, not only for this letter and key which I shall always treasure highly, but for the opportunity of having been a part of the Bureau during this time. The past ten years have been most interesting to me and, I feel, constructive ones -- not in the sense that my services have been of any particular value to the Bureau, but because I have been privileged to take a small part in a great organization that has done so much to benefit our nation.

It is my fervent wish that I might continue to serve the Bureau under your leadership for many years to come.

Respectfully,

Carson Nease

Dear Sir:

For inclusion in the fund to be paid to the widow or designated beneficiary of any Special Agent of the Federal Bureau of Investigation, United States Department of Justice, who had contributed to this fund prior to February 10, 1945, and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by ~~CHECK~~ ~~MONEY ORDER~~) the sum of ten dollars (\$10.00), made payable to the Chief Clerk of said Bureau, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund, which I understand is to be administered in the following manner:

Cash

The Director of the Bureau will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director of the Bureau in pertinent matters. The Chief Clerk of said Bureau shall receive all contributions and account for same to the Director.

Upon the death of any Special Agent, the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Chief Clerk, directing him to pay to the designated beneficiary the sum of \$10,000.

The following person is hereby designated as my beneficiary for F. B. I. Agents' Insurance Fund:

Name MADELINE OWEN NEASE Address PRES. GARDENS, ALEXANDRIA, VA.

Appeal Procedure

Any person entitled to do so may take an appeal to the board of appeal within 10 days after the above date of mailing of Notice of Classification to registrant in either of the following ways:

- (1) By filing with the local board a written notice of appeal. Such notice need not be in any particular form but must state the name of the registrant and the name and identity of the person appealing so as to show the right of appeal.
- (2) By signing the "Appeal to Board of Appeal" on the Selective Service Questionnaire (Form 40).

The person appealing may attach to his notice of appeal or to the Selective Service Questionnaire (Form 40) a statement specifying the respects in which he believes the local board erred, may direct attention to any information in the registrant's file which he believes the local board has failed to consider or give sufficient weight, and may set out in full any information which was offered to the local board and which the local board failed or refused to include in the registrant's file.

Appeal to the President from classification by the board of appeal may be taken at any time within 10 days after the date of mailing of notice to registrant, provided the registrant was classified by the board of appeal in either Class I-A, Class I-A-O, or Class IV-E and one or more members of the board of appeal dissented from such classification. Otherwise, the decision of the board of appeal is final except when an appeal is taken to the President either by the State Director of Selective Service or the Director of Selective Service on the ground that he deems it to be in the national interest or necessary to avoid an injustice.

The above-named Special Agent assisted in the inspection of the Laboratory during the month of March, 1945. He conducted personnel interviews and assisted in other ways, particularly with reference to suggestions which were of value and assistance in connection with the conduction of the inspection.

This Agent has an inquiring mind and is well grounded in Bureau procedure and policy. His training and experience make him ideally suited for inspection work and IT IS RECOMMENDED he be utilized in this capacity by the Training and Inspection Division to whatever degree may be possible. I consider his status as EXCELLENT.

Dear Sir:

For inclusion in the fund to be paid to the widow or designated beneficiary of any Special Agent of the Federal Bureau of Investigation, United States Department of Justice, who had contributed to this fund prior to July 30, 1945, and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - ~~MONY~~ ~~ORDER~~) the sum of ten dollars (\$10.00), made payable to the Chief Clerk of said Bureau, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund, which I understand is to be administered in the following manner:

The Director of the Bureau will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director of the Bureau in pertinent matters. The Chief Clerk of said Bureau shall receive all contributions and account for same to the Director.

Upon the death of any Special Agent, the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Chief Clerk, directing him to pay to the designated beneficiary the sum of \$10,000.

The following person is hereby designated as my beneficiary for F. B. I. Agents' Insurance Fund:

Name Dr. William D. Owen, Jr. Address Presidential Gardens, Alexandria, Va.

The Executive Conference consisting of Messrs. Tolson, Glavin, Tracy, Harbo, Tamm, Hendon, Nichols, Morgan, Ladd and Rosen on January 3 considered the suggestion of Mr. Nease that certain of the Special Agents in Charge of major offices of the Bureau be given Inspectors' ratings and be referred to as Inspectors in Charge. Mr. Nease was of the opinion that by such a designation an added incentive would be given for them to carry on and that this title would bring more respect to them from the police and the general public.

The Conference was unanimously opposed to the suggestion and felt that no change in the title of any of the Special Agents in Charge should presently be made. It was felt by the Conference that the title of Inspector had no particular meaning or significance to the general public and that no credit would accrue to the Bureau in any way through such a change. It was also pointed out that many police departments have individuals carrying the title of Inspector as do the Immigration and Naturalization Service and the Postal Service and as a result this title might carry less weight actually than that of Special Agent in Charge.

The Conference also felt that the Bureau would be borrowing personnel trouble through selecting certain Special Agents in Charge for different titles and that if any change were ever made it should include all the heads of our offices. For example, the need for shifts in personnel among the Special Agents in Charge if some of them carried different titles would always be a problem. If an Inspector in Charge had been at Miami and was followed by a Special Agent in Charge, the latter individual would be placed at a disadvantage and questions would be raised by various individuals. In addition the size of the various offices varies from time to time and an office with a heavy case load today may not necessarily be a major office three or four years from now. For these and other reasons the Conference recommends no change.

A.K. but how about Nease's other suggestions? There is much merit in them.

As a matter of record, I would like to advise that at approximately 11:15 last night, June 2, I was involved in an accident with my personally owned car, at 12th and Independence Avenue. I had swerved my car in order to avoid an individual who had stopped quickly, and struck the rear end of a Ford station wagon operated by [redacted]

[redacted] Morehead, North Carolina. He carried state registration card 5270. While damage was done to the station wagon, the majority of the damage was done to my car. My car is fully covered with both liability and accident insurance.

Officer [redacted] of the Fourth Precinct responded to a call and made an investigation of the accident. He simply made a notation that the accident had occurred and both parties were covered by insurance.

MEMORANDUM FOR THE DIRECTOR

Re: Personnel Turnover

As you are aware, there have been several resignations among the SACs and other Bureau officials, as well as numerous resignations of some of the older more experienced Agent personnel during the past several weeks. It is believed that we should take whatever steps we logically can now, to discourage further resignations and to retain the better and more experienced personnel. I have in mind particularly those employees in the upper brackets who have resigned, such as the SACs and other Bureau officials. While it may be that we have reached the peak in resignations and there may be a tapering off, it appears that business prospects for the next several years should be extremely good and there will no doubt be numerous attractive jobs open for which many of the Bureau personnel in the upper brackets will be qualified to fill and I think we may reasonably expect to continue losing some of our better personnel.

I have more or less gained the impression during the last several months that the idea of resigning from the Bureau has spread quite extensively throughout the organization. Many have been encouraged in this respect by the possibility of obtaining more attractive positions from a financial standpoint and in view of the fact that approximately 90% of the Agent personnel are married and are raising families, there is a strong desire among many to settle down to enjoy community life and raise their families in one locality. It is believed that these are the two underlying factors in most resignations, coupled with the fact that many men, while interested in their work, feel that they have reached their peak in the Bureau at a comparatively early age and have little opportunity of advancing further. It is for these reasons that I think we should make every possible effort in the immediate future to take whatever steps we can to maintain our present experienced personnel. Accordingly, I would like to submit for your consideration the following suggestions which have occurred to me and which it is believed might assist in accomplishing this.

At present we have seven SACs in Grade CAF-14, the basic salary rate being \$7175 per annum -- approximately 13% of our SAC personnel. I would like to recommend that consideration be given to increasing the total number of SACs who receive grade 14 to approximately 25%. It is believed that this can be done under the present regulations and it would be my recommendation that those SACs in the larger offices be given this consideration, particularly the following:

Mr. Tolson
Mr. E. A. Tamm
Mr. Clegg
Mr. Coffey
Mr. Glavin
Mr. Ladd
Mr. Nichols
Mr. Rosen
Mr. Tracy
Mr. Carson
Mr. Egan
Mr. Gurnea
Mr. Hendon
Mr. Pennington
Mr. Quinn Tamm
Mr. Nease
Miss Gandy

*A very much while study - give it

GAN:cgb

Chicago, San Antonio, Boston, Charlotte, Miami, and the Washington Field Office. I think that this might be accomplished gradually and even be extended to a larger per cent eventually. It will be noted that all of these offices involved have over 1350 cases and with the exception of San Antonio, Charlotte, and Miami have well over 100 personnel assigned to the offices. My purpose in recommending this would be to increase the number of higher paying jobs in the Bureau, which would be an added incentive for those in the lower brackets to remain with the Bureau and to eventually work up to one of the better paying positions.

It is further recommended that the Assistant SACs in those offices where the SACs are in Grade 14 be given CAF 13, the base pay for which is \$6230. This recommendation is made on the same reasoning as the above.

A further basis for the above reallocations is the fact that the Agent in Charge and in some instances the Assistant Agents in Charge in the larger offices must necessarily do some entertaining in order to maintain their contacts, which undoubtedly in many instances is a financial burden to them, and makes the position and the desire to advance to the position less attractive to many. Further, many of the SACs are subject to fairly frequent transfers, which result in considerable expense, as in the cases of many Agents, although their transportation of their families and furniture is paid for. With the housing situation being what it is in most major cities, I know that in many instances these men are required to spend considerable time in hotels while at the same time making other provisions for their families until such time as suitable housing can be obtained. It will undoubtedly be some time before this condition improves and in some instances it may conceivably get worse. I base this on the fact that recently I had an occasion to review a pamphlet put out by the local Board of Trade, which gave a rather gloomy picture of the housing situation in metropolitan Washington and which, incidentally, pointed out that while there may be a slight decrease in the population of metropolitan Washington within the next few months, within five years' time the population would exceed to a considerable extent the present population. It is very probable that this condition will prevail in many of the major cities in the United States.

While we have had one or two resignations among the top Bureau executives, it is believed that the more closely a man is knitted to the Bureau in an executive capacity the less likely he is to look for other employment. You will recall that we recently gave inspectors' titles to some of the Assistant Division heads of the Bureau, which I think had a very salutary effect on the rank and file of the personnel under their supervision and I cannot help but believe that it has given these individuals renewed vigor and brought them possibly still closer to the Bureau. It would, therefore, be my recommendation that those SACs of the major offices of the Bureau be given inspectors' ratings and

They might be referred to as the Inspectors in Charge of the offices. If this suggestion is believed to have merit, I think it should be confined to New York, Los Angeles, San Francisco, Chicago, and Philadelphia to begin with. In each instance the SACs in these offices are now receiving Grade 14, with the exception of Chicago and these men have more or less reached their peak so far as immediate salary increases are concerned. I think by designating them as inspectors it would be an added incentive for them to carry on and would probably knit them still closer to the Bureau. While inspectors' titles were recently given to three of the Assistant Division Chiefs, I think very careful consideration should be given to any other positions in the Bureau which might justify this title, as I not only feel it is beneficial to the employee involved but I feel considerable credit accrues to the Bureau by having the Bureau properly represented by individuals meeting the public and dealing with other police organizations. I have in mind other officials of the Bureau who have frequent contact with various police departments as lecturers, such as the Chief of the Crime Statistics Section, which position was formerly held by Inspector Harbo.

There may be other adjustments that can be made and I think they should be given very careful consideration in order to develop the Bureau into a real career service and to particularly reduce the resignations of the older, more experienced personnel.

Respectfully,

G. A. Nease

I thought perhaps you might like to consider a meritorious promotion for Gordon in view of the fact that most of the fellows in a comparable wage class have received meritorious promotions within the past few months, and I think Gordon merits consideration. Inasmuch as he does not work for any Assistant Director there is no one who can institute this action without bothering the Director unless you care to consider him.

I think his work on behalf of the Bureau particularly in connection with the revival of the Union would merit consideration at this time.

PERSONNEL FILE OF MR. GORDON A. HENSON

RE: Mr. Gordon A. Henson
Special Agent (Confidential Assistant to Director)
Grade GS-13, \$6650 per annum

It is recommended that the above employee be afforded the additional advancement recommended in the attached Personnel Recommendation in view of the superlative manner in which he has performed his duties for the past several years which has distinguished him as outstanding even among other employees in the excellent category. He has assisted on inspections of field office installations and has made numerous suggestions concerning administrative practices in these field offices for the improvement of the service. As Confidential Assistant to the Director, he has performed liaison activities of an extremely confidential nature furthering the war effort. He has performed in an exemplary manner on personnel committees and has submitted many plans concerning personnel policies such as promotion plans, executive training plans, et cetera, many of which were subsequently adopted by the Bureau. It is therefore considered that Mr. Henson well merits the recommended salary increase.

MEMORANDUM FOR THE DIRECTOR

Recently I was assigned to conduct a re-check inspection of the St. Paul Office which I found enjoyable and interesting. I believe I profited materially by it and gained a better perspective of field problems than I have had before. In the past I have assisted on several field office and S.O.G. inspections, however, this was the first one I had conducted alone.

In order to broaden my experience in the Bureau and consequently become of more value to the organization, I would like to be permitted to personally handle a couple of field office inspections yearly. I believe I could handle such assignments during the periods you are out of the city.

Respectfully submitted,

G. A. Nease

MEMORANDUM FOR THE DIRECTOR

RE: FIELD OFFICE DELINQUENCY FIGURES

During the past several weeks I have talked with a considerable number of the Special Agents in Charge, most of whom seem to be somewhat concerned over their rising delinquency figures as reflected on their monthly administrative reports. While practically the only thing these figures are used for at the Seat of Government are for budget purposes most of the Agents in Charge watch the figures very closely and are under the impression that it is a reflection on their offices if the figures continue to rise and they are of the opinion that the figures now reflected on their reports are false figures, which is undoubtedly quite true in view of the procedure now followed in arriving at delinquent cases.

As you are aware, no reports are made in deserter cases until the deserter is actually apprehended, at which time a final report is prepared. Of course in a case of this type active investigation might go on for a considerable period of time before the man is apprehended and although the case is reflected on the administrative report as delinquent, since no report has been written and posted, the case cannot be considered delinquent from the standpoint of not receiving investigative attention. Some offices, and particularly border offices, have a problem in connection with Selective Service cases where all investigation has been completed and the subject has not been apprehended because he is believed or known to be in Mexico and of course these cases are carried in a delinquent status. In NMVTA cases and other similar cases, particularly those involving a fugitive, no report is written by a field office so long as there are leads outstanding within that particular territory. For an example, it might be possible that in a particular case there might be leads in several sections of the territory covered by different resident agencies and although one resident agent may have conducted extensive investigation and submitted a memorandum to headquarters office concerning it, no report can be written until the leads in the other part of the territory have been covered. It is this type of an investigative memorandum that the SAC's desire to post which would take the case out of the delinquent status. It will be seen from this procedure that a considerable number of cases are monthly reported as being delinquent which are not actually delinquent from the standpoint of receiving investigative attention.

Memorandum for The Director

The majority of the Special Agents in Charge feel that this condition could be remedied by permitting them to post an investigative memorandum even though the entire investigation has not been completed which procedure would bring the case out of the delinquent category.

There are, of course, numerous arguments both pro and con for this procedure. It would be necessary to leave the matter to the judgment of the Agent in Charge as to whether or not an investigative memorandum should be posted and of course the privilege might be abused, but it is believed that the majority of the Agents in Charge will use good judgment in following such a procedure and it can further be checked on during the inspection of the offices to make sure they are not simply writing memoranda for the file in order to remove a case from a delinquent status.

RECOMMENDATION: While I understand this matter has been previously studied by the Training Division and possibly the Executive Conference, it is recommended that the matter be looked into again with the thought in mind of permitting the field offices to post investigative memoranda even though it may be several days before the particular investigation in the entire field division has been completed.

Respectfully submitted,

G. A. Nease

MEMORANDUM FOR THE DIRECTOR

Concerning my handling of a memorandum prepared by Mr. Ladd for the Director under date of October 10, 1946, regarding the apprehension of certain individuals in Baltimore in possession of what was believed to be pictures of atomic bombs, please be advised as follows:

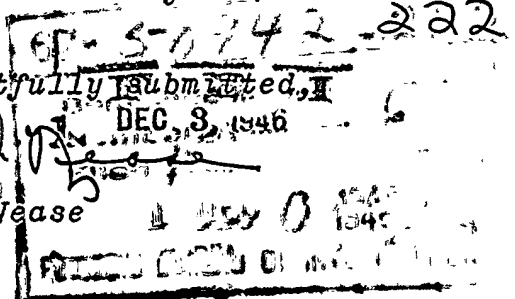

This memorandum was received in the Director's Office at 9:46 this morning as is indicated by the time stamp. It was brought to my desk shortly thereafter, the exact time not known, together with another memorandum which was prepared by Mr. Tamm regarding an interview he had with Ernest Cuneo. My recollection is that these memoranda were received at the same time and I have verified this with the clerk in the Director's Office handling the mail this morning and, as a matter of fact, these are the only two memoranda received by me thus far today.

Upon receipt of both memoranda, as is my usual custom, I read them and placed them on the leaf of my desk to be held for the Director since they both appeared to be strictly informative. Neither bore special tags nor routing slips. I assumed both of the memoranda were received from Mr. Tamm's Office. I did not notice that the memorandum on the atomic bomb had not been initialed by Mr. Tamm, but upon examining the memorandum this afternoon I noticed it was a memorandum prepared by Mr. Ladd for the Director.

Mr. Tamm has made inquiry as to why no action was taken on the same in view of the press release and I wish to state that I had no knowledge whatsoever of the contents of the press release as I do not see press releases prior to their going out of the Bureau, and as before stated there was nothing in the memorandum to indicate to me that it was anything more than informative, particularly since it was prepared under yesterday's date.

Respectfully submitted,

Mr. Gordon A. Nease
Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Nease:

The Bureau is in receipt of the report of the physical examination afforded you at the United States Naval Hospital, Bethesda, Maryland, on December 20, 1946.

This report reflects that you have allergic rhinitis with deviated nasal septum and sinusitis, bilateral varices, and external hemorrhoids.

The Board of Examining Physicians of the United States Naval Hospital recommends submucous resection and desensitization to allergenic substances.

It reports that you are capable of performing strenuous physical exertion and have no physical defects that would interfere with your participation in raids or other work involving the practical use of firearms.

Sincerely yours,

John Edgar Hoover
Director

Director
Federal Bureau of Investigation
United States Department of Justice
Washington, D. C.

Dear Sir:

For inclusion in the fund to be paid to the widow or designated beneficiary of any Special Agent of the Federal Bureau of Investigation, United States Department of Justice, who had contributed to this fund prior to July 15, 1947, and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of ten dollars (\$10.00), made payable to the Chief Clerk of said Bureau, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund, which I understand is to be administered in the following manner:

The Director of the Bureau will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director of the Bureau in pertinent matters. The Chief Clerk of said Bureau shall receive all contributions and account for same to the Director.

Upon the death of any Special Agent, the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Chief Clerk, directing him to pay to the designated beneficiary the sum of \$10,000.

The following person is hereby designated as my beneficiary for F. B. I. Agents' Insurance Fund:

\$8,000
Name Madelene O. Nease Address Presidental Gardens, Alexandria, Va

Inspector Nease entered on duty as a Clerk with the Bureau on March 1, 1935, and became a Special Agent on November 1, 1938. He is presently in Grade CAF-13, \$8059.80 per annum, and his last salary change was on September 7, 1947, at which time he received an increase under the provisions of the Uniform Promotion Act.

On March 31, 1946, Associate Director Tolson rated him as **EXCELLENT**.

On June 30, 1946, he received a meritorious increase in salary for the outstanding manner in which he had performed his duties.

On March 31, 1947, the Director rated him as **EXCELLENT**.

RECOMMENDATION: Mr. Nease has continued to handle the many special and confidential projects in the Director's Office. His liaison with the Assistant Directors and others in the Bureau has been one of understanding of the various problems involved.

It is respectfully recommended, therefore, that he be designated Inspector in Grade CAF-14, \$8179.50 per annum, since during the past year he has conducted a number of inspections and will continue to perform such assignments as directed by the Director.

Dear Sir:

For inclusion in the fund to be paid to the widow or designated beneficiary of any Special Agent of the Federal Bureau of Investigation, United States Department of Justice, who had contributed to this fund prior to February 15, 1948, and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - ~~MONEY ORDER~~) the sum of ten dollars (\$10.00), made payable to the Chief Clerk of said Bureau, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund, which I understand is to be administered in the following manner:

The Director of the Bureau will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director of the Bureau in pertinent matters. The Chief Clerk of said Bureau shall receive all contributions and account for same to the Director.

Upon the death of any Special Agent, the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Chief Clerk, directing him to pay to the designated beneficiary the sum of \$10,000.

The following person is hereby designated as my beneficiary for F. B. I. Agents' Insurance Fund:

Director
Federal Bureau of Investigation
United States Department of Justice
Washington, D. C.

Dear Sir:

For inclusion in the fund to be paid to the widow or designated beneficiary of any Special Agent of the Federal Bureau of Investigation, United States Department of Justice, who had contributed to this fund prior to November 30, 1948, and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of ten dollars (\$10.00), made payable to the Chief Clerk of said Bureau, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund, which I understand is to be administered in the following manner:

The Director of the Bureau will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director of the Bureau in pertinent matters. The Chief Clerk of said Bureau shall receive all contributions and account for same to the Director.

Upon the death of any Special Agent, the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Chief Clerk, directing him to pay to the designated beneficiary the sum of \$10,000.

The following person is hereby designated as my beneficiary for F. B. I. Agents' Insurance Fund:

MEMORANDUM FOR THE DIRECTOR

RE: IN-SERVICE TRAINING

G. A. NEASE

I attended the In-Service Training Class which ended Friday, November 12, 1948, and would like to make the following observations concerning the present In-Service Training Program:

My reaction to the program generally is that it was excellent. Although I am not in a position to compare the present training course with others held in recent years, I did hear much favorable comment from other members of the class to the effect that the In-Service training courses seem to grow more interesting as time goes on and all of whom I spoke with were very favorably impressed with the course as it is today. The entire session was carried on in a thoroughly interesting and businesslike manner, which has the effect of stimulating the interest of the members of the class in the various discussions. Generally speaking, the various lecturers seemed to know their subjects well and had planned their lectures so that they were not given in a routine hum-drum fashion.

The most impressive part of the In-Service training program so far as I was concerned was that carried on at Quantico and consisting of the major case problem and several different arrest problems. This type of instruction seems to me to be a very excellent method of training and stimulates great interest on the part of the class members. I would also judge from the type of questions asked and suggestions made by various members of the class in connection with the major case problem that this type of training is badly needed in the Field, particularly at this time when a great number of the Agents are conducting more or less an applicant type of investigation. The major case problem appeared to be exceptionally well planned and involved practically every situation an Agent might be confronted with in handling any major case, even to the extent of bringing in a possible Civil Rights violation. I should think that a problem of this type will never grow old since every group of Agents will have different questions, analyze the various problems differently, and will bring out different situations confronting them in the Field that would have application to the problem. The arrest problems I feel are exceptionally well worthwhile. I had the opportunity of observing two different arrest problems executed by six different

Memorandum for The Director

There was also considerable favorable comment by the class members on the manner in which the class as a whole was handled. Of course, while attending lectures in Washington the class was together in one group. However, upon arrival at Quantico the class was broken up into two sections, one section receiving the major case training while the other section was on the range receiving firearms training. This made the groups much smaller and enabled each individual member to participate more in class discussions. The group on the range was further broken down into smaller groups to receive training in the use of the various firearms. This again enabled each class member to stay busy at all times and made the firearms training much more interesting and eliminated any lost motion.

I thought the firearms training program was particularly good since new courses of training in the use of the various weapons have been devised to add a more practical aspect to the training in an effort to create a proficiency in the use of the weapons under circumstances which a person might actually meet on a raid. This was the first opportunity many members of the class have had to receive training in the skeet course, and I would like to state that in my estimation this is an exceptionally valuable course in training as it involves the application of every principle of handling a firearm efficiently. It particularly emphasizes the need of the Agents to receive training in shooting at a moving target. It also brought out the fact that many Agents who were quite proficient at shooting at a still target were quite inefficient in hitting a moving target, and I think serious consideration should be again given to permitting the Field Offices to include this training in their regular firearms training periods.

Respectfully submitted,

G. A. Nease

Mr. Gordon A. Nease
Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Nease:

The Bureau is in receipt of the report of the physical examination afforded you at the United States Naval Hospital, Quantico, Virginia, on November 3, 1948.

This report reflects that you have defective vision of 20/70 in both eyes, corrected to 20/20.

It is further noted that you have small internal hemorrhoids, for which the medical examiner recommends surgery in the event you have any symptoms.

With regard to the electrocardiogram, there was no evidence of myocardial damage; however, the examiner noted that you have a persisting rapid pulse rate following exercise and therefore recommended a moderate regular exercise to increase your cardiac tone.

The Board of Examining Physicians of the United States Naval Hospital reports that you are capable of performing strenuous physical exertion and have no physical defects that would interfere with your participation in raids or other work involving the practical use of firearms.

Sincerely yours,

John Edgar Hoover

In regard to the attached, I think there are undoubtedly at the Seat of Government others who are qualified to conduct one or two field inspections per year which would further alleviate the problem of having all offices inspected regularly. I have in mind particularly those here who have been SAC's. I think that it would further accrue to the benefit of the Bureau since I believe there is a tendency for us at the Seat of Government to lose track of the field problems due to lack of direct contact with the field. I personally certainly would be willing to assist in this regard since I have had some experience in conducting field inspections, if it is believed advisable that I do so.

Letter to the Chief Clerk
March 28, 1950*

Dear Sir:

For inclusion in the fund to be paid to the designated beneficiary of any Special Agent of the FBI who has previously contributed to this fund and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - MONEY-ORDER) the sum of \$10, payable to the Chief Clerk of the FBI, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund which I understand is to be administered in the following manner.

The Director of the FBI will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director in pertinent matters. The Chief Clerk of the FBI shall receive all contributions and account for same to the Director. Upon the death of any Special Agent who is a member of said fund the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Chief Clerk, directing him to pay to the designated beneficiary the sum of \$10,000. MEMORANDUM FOR THE DIRECTOR

In order that it may be made a matter of record in the files of this Bureau, I am attaching hereto the results of an examination afforded me by Dr. Edgar W. Davis, Dr. Davis being an internationally known chest specialist. As a matter of background, it will be recalled that as a result of the last physical examination afforded me at the Naval Hospital, which was in the Spring of this year, I was advised by Dr. Farrar at the Naval Medical Center that X-rays showed I had a tumor in the right lung. He further informed me that there was a likelihood that the tumor was malignant. He suggested that I spend two weeks at the Naval Hospital for observation and for a probable operation to remove the alleged tumor. As a result of this I arranged to see Dr. Edgar Davis and showed him the Naval Hospital X-ray pictures. At that time it was his opinion that there was nothing of clinical significance in the X-ray pictures; however, to be certain, he made a series of additional X-ray pictures with the result that it was determined that what was believed to be a tumor was nothing more than a heavily calcified infantile tubercular scar which was of no clinical significance and certainly nothing requiring surgery.

I asked Dr. Davis to furnish a copy of his diagnosis to the Naval Medical Center at the time he returned the X-ray pictures to them. He informed me that this has been done.

Respectfully,

G. A. Nease

Re: Mr. Gordon Arthur Nease

My dear Doctor O'Donnell:

I appreciate your referring Mr. Nease to me for consultation. He came to my office Wednesday, June 28, 1950.

Mr. Nease brought with him some x-rays from the Naval Medical Center, which showed a "tumor-like" nodule in the right chest. Although this was believed to be an old healed tuberculous focus, I was not sure that it contained calcium. Mr. Nease was therefore taken to Garfield Hospital where various types of x-rays, including "spot" films were made, which showed this to be definitely a calcified tuberculous focus, which is frequently designated as a tuberculoma. This is a perfectly benign and innocuous lesion. I have advised Mr. Nease that this is of no clinical significance, and so far as the necessity for surgery is concerned, he need never worry.

I am returning Mr. Nease's x-rays, together with a copy of this letter, to Dr. M. W. Mason, Chief of Radiology, Naval Medical Center, Bethesda, Maryland.

I thank you for having referred this patient to me.

Sincerely yours,

Edgar W. Davis

Examination of the chest reveals the heart to be normal. The left lung field appears clear. There is a calcified pleural plaque in the right mid lung field at the level of the 4th rib anteriorly. The remaining position of the right lung appears clear. We do not believe this lesion to have any pathological significance.

Re-examination of the chest compared with 3/25/50 with PA and lateral views again reveals the previously described area of increased density to be present in the same position in the right lung as previously described. The lateral view puts this in the mid plane in the parenchyma of the lung. It is still well circumscribed, oval in shape, it has not changed in density and has the appearance of a benign lesion. However, the exact nature of this lesion cannot be determined with these films alone.

Mr. Carlson	July 10	July 28
Mr. Nease	May 29	June 16
Mr. Mohr	June 19	July 7

Mr. Belmont has scheduled leave from September 11 through September 29.

Mr. Nichols had leave scheduled from July 10 through July 28 but he has not taken it.

I had leave scheduled from July 3 through July 18 which has not been taken.

With reference to the annual leave taken by Mr. Rosen on Wednesday, Thursday and Friday, August 16, 17 and 18 of last week, I spoke to Rosen upon his return to Washington yesterday. He stated that his mother and father had been here visiting him; he wanted to drive them back to Cleveland; that he spoke to Mr. Ladd about it and presumed that the leave had been approved. Mr. Ladd advised me that Rosen came into his (Ladd's) office late Tuesday evening and stated that he was leaving Wednesday morning to drive his folks back home; that they had been here with him for two weeks. Mr. Ladd stated that he mentioned to Mr. Rosen that that was the first he had known Rosen's parents had been in town with him. There was no further discussion of this matter according to Mr. Ladd.

I personally had no knowledge of the departure of Mr. Rosen prior to the time he left.

Dear Mr. Nease:

The Bureau is in receipt of the final report of the physical examination afforded you at the United States Naval Hospital, Bethesda, Maryland.

It is noted that a series of chest x-rays revealed a calcified area in the right mid-lung field and as a result of further clinical investigation by your personal physician, this lesion was found to be of no significance.

The Board of Examining Physicians of the United States Naval Hospital reports that you are capable of performing strenuous physical exertion and have no physical defects that would interfere with your participation in raids or other work involving the practical use of firearms.

Should you at any time desire copies of the results of the above x-rays for use in consulting your physician they will be made available to you upon request.

Dear Sir:

For inclusion in the fund to be paid to the designated beneficiary of any Special Agent of the FBI who has previously contributed to this fund and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of \$10, payable to the Chief Clerk of the FBI, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund which I understand is to be administered in the following manner.

The Director of the FBI will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director in pertinent matters. The Chief Clerk of the FBI shall receive all contributions and account for same to the Director. Upon the death of any Special Agent who is a member of said fund the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Chief Clerk, directing him to pay to the designated beneficiary the sum of \$10,000. TO : MR. TOLSON

DATE: 1/10/51

FROM : J. P. MOHR

SUBJECT: INSPECTORS

Training and Inspection Division

Reference is made to the attached memorandum dated December 22, 1950, from Mr. H. L. Edwards to Mr. Glavin, which recommends that Special Agent Gerald C. Gearty of the Training and Inspection Division be reallocated to Grade GS-14, \$8800 per annum in view of the fact that Mr. Gearty is performing inspection duties in the Training and Inspection Division.

You inquired concerning how many Inspectors we have at the present time with their grade and salaries and their assignments. The following individuals carry the rating of Inspector and they are all in Grade GS-14:

A. H. Belmont	Security Division
N. P. Callahan	Administrative Division
G. C. Callan	Investigative Division
J. A. Carlson	Training and Inspection Division
J. S. Egan	Training and Inspection Division
V. P. Keay	Security Division
L. L. Laughlin	Security Division
H. B. Long	Training and Inspection Division
J. J. McGuire	Records and Communications Division
[REDACTED]	Training and Inspection Division
K. R. McIntire	Training and Inspection Division
J. P. Mohr	Mr. Tolson's Office
T. E. Naughten	Training and Inspection Division
G. A. Nease	Director's Office
L. R. Pennington	Investigative Division
J. S. Rogers	Training and Inspection Division
Quinn Tamm	Identification Division

Of the foregoing, Messrs. Carlson, Long and Naughten are engaged in full-time inspection duties. Mr. Connelley also conducts some field inspections when he is not on special assignment. Mr. Harbo has also assisted the Training Division during the past calendar year in conducting some inspections.

Messrs. [REDACTED] and [REDACTED] both of whom are presently in Grade GS-13, are doing the same type of inspection work as the Training and Inspection Division as Messrs. Long and Carlson. As indicated in the attached memorandum, Mr. Gearty has now qualified as a full-time field Inspector and I feel he should be reallocated to Grade GS-14 at this time. The only other individual who will eventually qualify for promotion to this grade for inspection work is Mr. B. C. Brown and the

Training and Inspection Division is presently giving consideration to his promotion in the near future after an opportunity has been given to review his most recent field inspection.

It will be observed, therefore, that the only two employees who will be involved in such a promotion program are Messrs. G. C. Gearty and B. C. Brown. Under the circumstances, I recommend that Mr. Gearty, who has now qualified as a full-time field Inspector, be reallocated at this time to Grade GS-14, \$8800 per annum.

I concur

I am not going to approve any more of the individuals to be given such a grade are willing & desirable of traveling & willing to accept full business of Inspectors. If Gearty & Brown so understand they advise me. Also check should be made with Carlson, Egan, Long, F. H. McIntire, K. R. McIntire, Naughton & Rogers to find out their attitudes. We are getting bogged down with GS-14 Inspectors who are not available.

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared. Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).
✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.
○ No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out below.
 So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out below.

Dear Mr. Nease:

The Bureau is in receipt of the report of the physical examination afforded you at the United States Naval Hospital, Bethesda, Maryland, on April 24, 1951.

This report reflects that you have defective vision of 20/70 in the right eye and 20/50 in the left eye, corrected to 20/20 in both eyes, which was also noted on your previous physical examination.

There is enclosed herewith a copy of the results of the repeat chest x-ray performed on May 15, 1951.

For your further information, the electrocardiogram was within normal limits.

The Board of Examining Physicians of the United States Naval Hospital reports that you are capable of performing strenuous physical exertion and have no physical defects that would interfere with your participation in raids or other work involving the practical use of firearms.

Sincerely yours,

J. Edgar Hoover

MEMORANDUM FOR MR. NEASE

RE: SPECIAL AGENT APPLICANT INTERVIEWS AND EXAMINATIONS

I am attaching hereto a copy of a letter addressed to all Special Agents in Charge covering the Bureau's revised Special Agent applicant interviewing and examining procedure. The program is fully explained therein and need not be again set forth in this communication.

In conformity with information furnished to you previous to this time, you are being designated to handle Special Agent applicant interviews and examinations in nearby offices as needed.

I know I need not point out to you the importance of the proper implementation of this program. It has been pointed out to you prior to this time that many individuals totally lacking in the basic qualifications for appointment to the position of Special Agent have been favorably recommended by interviewing officials in the past and have entered on duty in our service. As a consequence, it has been necessary to take action at Washington to separate these individuals from our rolls after they have entered on duty. This action causes hardship for the applicant and subjects the Bureau to possible criticism through disgruntled former employees whose resignations have been requested.

I trust that through our present program we will have overcome this undesirable tendency to recommend unqualified applicants for appointment. Each interviewer must bear in mind that the applicants he recommends will be the life blood of the Bureau in the future. We must insure that the Bureau will continue to be an aggressive, honest and virile organization. This can be assured through the appointment of only those applicants who possess the highest qualifications for the position.

Each interviewer must be positive that the applicant recommended has the proper appearance, personality, education, and native intelligence to function properly on any assignment which may be given.

So that the applicant's ability to express himself properly in written material may be evaluated by you, the Bureau has approved the addition of a question to our present examination wherein the applicant will be asked to state fully on the sheet of paper containing

NRG:amb

del. Presumably 6/25/51 amb

the question why he is desirous to become a Special Agent of the Bureau. Other questions of a like nature may be utilized by the interviewing official.

This additional question should be mimeographed in the field for use with the examination papers presently in the possession of the field. As additional examination papers are sent to the field, this additional question will be appended thereto at the Seat of Government. With the inclusion of this additional question, the time limit for the regular law examination is increased from 2 to 2½ hours and the accounting examination from 4 to 4½ hours.

In the event you have any question in mind regarding this program, please communicate promptly with the Bureau concerning it.

Very truly yours,

John Edgar Hoover
Director

I am attaching hereto a letter addressed to all Special Agents in Charge, as well as communications addressed to approved interviewing officials concerning the Bureau's present Special Agent applicant interview and examination program. It will be noted from the attached communications to all Special Agents in Charge that the Bureau instructs that it be advised when at least ten interviews and examinations are pending in any field office and the Bureau will then communicate with the approved official covering that office so that he may arrange with the Agent in Charge for the scheduling of the interviews and examinations in question. I have set forth the instructions in this manner since the Agent in Charge will better know the distances applicants must travel and will be in a better position to have all applicants who are pending report to the field office on one particular date so that the necessary interviews and examinations may be scheduled. I feel that these interviews and examinations need not be held more than once every two weeks. There may be some exceptions necessary in the event a large number of applicants for the position apply in any one particular office. If they do, we can cover this exception by having additional interviewing officials proceed to that office to handle the interviews and examinations in question.

You will note that in the last paragraph of the second page of the letter to all Special Agents in Charge, it is stated that there may be some interviews and examinations now scheduled which cannot be cancelled and that the Agent in Charge or the Assistant Agent in Charge may handle these interviews. Undoubtedly a number of field offices have already scheduled such interviews and examinations which would necessitate applicants making special plans to be absent from work or to travel long distances to appear at the field office for the examination and interview. I think these interviews should go forward as originally scheduled.

With reference to the utilization of approved interviewing officials, I feel that the following distribution would give us good coverage with a minimum of travel:

the following offices on Saturdays:

Baltimore
Pittsburgh
Philadelphia
Richmond
Norfolk

These Agents will also assist at New York and Newark when
the number of applicants makes such assistance necessary.

No specifically designated interviewer is set up to inter-
view applicants at Anchorage, San Juan and Honolulu. Applicants from
these offices are few and far between and it would not be economical
or advantageous to the Bureau to have any of the qualified interviewers
proceed to the territorial offices for such interviews.

Inspectors H. B. X Long, ~~_____~~ and T. E.
X Naughten have been instructed by Mr. Clegg concerning the Bureau's
revised Special Agent applicant interview and examining program and
these four Inspectors can handle the Special Agent applicants who
apply at those offices which are under inspection by them. I have
arranged with Mr. Clegg to be kept advised of the inspection schedules
of all of these men and I will see that there is no overlapping of
travel by other interviewers and examiners when one of the inspectors
is going to be at a particular office within a short period of time.

Mr. Tolson has inquired as to whether the physical examination reports of Mr. Nichols and Mr. Nease have been received.

In reply I wish to advise as of this morning, neither of these reports is completed because both of these men require some specialized reexaminations which have already been arranged. In the case of Mr. Nease, he is to have a 14" by 17" chest X-ray and he is going to Bethesda for that purpose today. In the case of Mr. Nichols, he must submit an additional stool specimen which he will do on May 16, 1951.

I will follow both of these cases personally to make sure that these reports are received and brought to your attention at the earliest possible date.

I wish to advise you that all of the Seat of Government officials are current in receiving their annual Naval physical examinations with the exception of sir, R. T. Harbo, L. B. Nichols, A. Rosen, S. J. Tracy, G. A. Nease and J. Sizoo.

With the exception of Mr. Nichols, the other officials just became due in March, 1951 and they are being scheduled as follows:

R. T. Harbo	4/23/51
S. J. Tracy	4/23/51
A. Rosen	4/24/51
J. A. Sizoo	4/24/51
G. A. Nease	4/24/51

Mr. Nichols has not yet been able to get out to Bethesda for his physical examination, for which he is considerably overdue. I checked with him again this morning and he at first stated that he would be able to go out 4/16/51 but he remembered that there were a number of matters coming up that week which would probably prevent him from going. He will endeavor to go sometime during the week of 4/23/51 and I will check with him in this regard for a definite date for that week.

PERSONAL AND CONFIDENTIAL

Mr. Gordon A. Nease
Federal Bureau of Investigation
Washington, D. C.

Dear Sir:

I am most disappointed at the indifferent manner in which you handled the review of memoranda which you permitted to be forwarded to me relating to the replacing of Agent Supervisors with high-grade clerical supervisors in the Security and Investigative divisions.

Obviously, I must rely upon you to give complete and careful thought to memoranda of this type which are reviewed by you, so that when they are received by me they will be complete in all aspects and ready for my final review and consideration. The memoranda referred to were woefully inadequate in all respects and should have been noted by you and returned for correction and appropriate consideration of all persons concerned, and particularly the Executives Conference, before being forwarded to me.

I cannot express too strongly my disappointment in the way you have handled this matter and must insist that you afford closer personal attention to such matters in the future to see that they are properly prepared and presented before being forwarded to me for my consideration.

Very truly yours,

J. Edgar Hoover

Concerning your notation on the attached memorandum of Mr. Mohr, to the effect "What is meant 'upon Nease's request, '" in referring to a statement by ASAC Simon of the Kansas City Office that he did discuss with me Mr. Jones' overtime when he, Simon, was last in Washington, I am also attaching a copy of a memorandum which I prepared as a result of my conversation with Mr. Simon on May 21, 1951.

SEP 10 1951 67-50942-247

Simon called at my office when he was attending in-service training and I recall having generally discussed with him the work situation of Kansas City and during the conversation I recall that I expressed my views on overtime, pointing out that it is my feeling that every Agent in the service is paid a salary by the year to do a job and is not paid on a daily basis and that they should put in whatever time is necessary to do that job and at the same time I asked about the various disciplinary cases that had been sent to Kansas City in the past, mentioning no specific cases but asking if they were experiencing any problems or difficulties with any of them, having in mind that several such cases have been transferred to Kansas City from time to time. As I recall he pointed out that they had experienced no difficulty and all seemed to be trying to do a good job and he specifically mentioned Jones. I do not personally know Jones and at the time he mentioned Jones I did not immediately recall what Jones had been sent to Kansas City for. In any event, I thought the information he furnished me concerning Jones was interesting and indicated a good attitude on this Agent's part and I thought it merited being called to your attention, for which reason I prepared the memorandum. I recall having reviewed Jones' file to further refresh my recollection as to his background and in doing so I noted that further information concerning former SAC Good's attitude had been developed even after Jones had gone to Kansas City and that he had been censured by letter a second time concerning this matter; which fact, in my opinion, would have prevented Jones from having received consideration for transfer back to Mobile even if one had been requested. It will be noted that my recommendation on this memorandum is none. Simon said absolutely nothing to me about Jones' wanting a transfer and, as a matter of fact, seemed to be very hazy as to why Jones' family had never joined him in Kansas City. I apparently asked Simon why this

THUR

was and it is noted in my memorandum that he had indicated that he believed it was because of ill health of Jones' father, and actually I think subsequent events have shown that it was the ill health of his wife's mother that kept her in Mobile.

Most certainly I was unaware that Jones was desirous of a transfer and had no such purpose in mind when I prepared this memorandum, merely feeling at the time, as I do now, that it should have been made a part of his file. I further do not believe that Simon would even have brought up the matter had I not made inquiry about the disciplinary cases in Kansas City and through my discussion with him of overtime.

Respectfully submitted,

G. A. Nease

Reference is made to the Director's inquiry by routing slip concerning the two memoranda which I prepared concerning the possibility of replacing Special Agent Supervisors with high-grade clerical supervisors in the Security and Investigative Divisions. There are no adequate or satisfactory excuses I can offer for having submitted these memoranda without the views of the members of the Executives Conference. This has since been done and Executives Conference memoranda presented.

I do recall specifically that the number of positions in which I felt that the replacements might be made in these two Divisions were in excess of what I had originally thought possible, and endeavoring to bring these views to the attention of the Director and Mr. Tolson, I erroneously assumed that these views would be read and after all the surveys had been made of the various Divisions, I had assumed that then the matter was to be presented to the Executives Conference. Of course, with the three added views noted on the memoranda, one concurring and two opposed, it would be a matter of confusion that is obvious and should have been obvious to me in the beginning that it should have been presented to the Executives Conference. I regret very much that I did not do so.

I wish I had a complete and satisfactory excuse for the sloppy handling of these memoranda referred to by Mr. Clegg. I have none. From reading Mr. Clegg's comments, he has none either. I recommend that letters of censure be addressed to Mr. Clegg and myself for this sloppy work.

SUBJECT: SPECIAL AGENT APPLICANT RECRUITING PROGRAM

General

It will be recalled that to date the following individuals have been approved for the purpose of interviewing Special Agent applicants at the Seat of Government and in neighboring offices.

Assistant Director E. J. Connelley
 Special Agent C. L. Trotter
 Special Agent [REDACTED]
 Special Agent H. V. Kennedy
 Inspector G. A. Nease
 Special Agent [REDACTED]
 Special Agent J. C. Shanklin
 Special Agent E. C. Kemper
 Special Agent [REDACTED]

The various offices to be covered by these individuals are listed below with the average number of applicants weekly for each field office listed.

Baltimore	10
Pittsburgh	23
Philadelphia	26
Richmond	8
Norfolk	3
New York	66
Newark	20
Boston	30

It has been found that an interviewer can handle approximately 15 applicant interviews per day on an average. In view of the fact that several of the above named individuals have been and will be on leave during the summer months and must handle their regularly assigned work in addition to the interviewing, it is requested that the following individuals also be approved for the purpose of interviewing applicants at the Seat of Government and the above mentioned offices if necessary.

OR ✓
 Inspector K. N. [REDACTED]
 Inspector J. S. Rogers
 Special Agent [REDACTED]
 Special Agent [REDACTED]
 Special Agent W. S. Tavel

3 June

It should be noted that there have been approximately 25 Special Agent applicants to be interviewed each week at the Seat of Government.

It is also requested in view of the fact that the number of applicants in New York City requires almost the full time attention of one interviewer that Assistant Special Agent in Charge E. E. Hargett be approved for the purpose of interviewing Special Agent applicants in New York City.

With regard to the designation of ASAC Hargett of the New York Office as an interviewing official, I telephonically communicated with him and advised him of the details of the Bureau's present recruitment program and instructed that he handle the SA applicant interviews in the New York Office at this time. I advised him if the number of applicants becomes too heavy we will give the necessary assistance in the form of other authorized interviewing officials.

OFFICE MEMORANDUM

UNITED STATES GOVERNMENT

TO : MR. TOLSON

DATE : 8/15/51

FROM : J. P. MOHR

SUBJECT : [REDACTED]
Messenger
Records Section

b6

You will recall in connection with [REDACTED] doodling activities in the Messenger Unit, her resignation was requested on August 10, 1951. [REDACTED] resignation has since been cancelled in view of other information subsequently developed. In any event, [REDACTED] was handed a letter in an unsealed envelope from the Director on August 10, 1951 by Special Agent Supervisor M. F. Donegan of the Records Section. The letter did not bear the Director's autographic signature.

[REDACTED] a clerical employee in [REDACTED] Office in the Administrative Division was carrying this material through on an expedite basis and she took it to Mr. Nease for handling in view of the temporary absence of Miss Gandy. Mr. Nease initialed the top memorandum to Mr. Nichols in which memorandum Mr. Nichols was advised of the fact there was enclosed a letter to [REDACTED] requesting her resignation and setting forth other instructions to Mr. Nichols. Mr. Nichols' memorandum and the attached letter to Miss [REDACTED] were half letter size and Mr. Nease stated in checking this material he inadvertently failed to note the letter to [REDACTED] which required the Director's autographic signature. Mr. Nease stated had he observed the letter in question he would not have handled the matter since he is not authorized to affix the Director's autographic signature to mail.

Mr. Nease gave the letter back to [REDACTED] who took the material to the Mail Room where it was handled by clerical employee [REDACTED]. It was [REDACTED] responsibility to check the mail to see that it was properly signed and to place the mail in the appropriate envelopes. [REDACTED] did not put the material in the envelopes as he was required to do. When [REDACTED] observed that he had failed to do so, she folded [REDACTED] letter without observing that it was not signed, it being noted she was not required to check it for that purpose, and she placed the letter in the envelope unsealed. She then had some doubt as to how the rest of the material should be handled so she took all of it back to [REDACTED] an experienced clerical employee in [REDACTED] Office and [REDACTED] then placed everything in a larger envelope to Mr. Nichols, which she sealed. As indicated, [REDACTED] when he presented the letter to [REDACTED] had no occasion to look at the letter in the envelope since he had a copy of the communication with the Director's stamped signature and there was no reason for him to believe that the mail was not properly signed.

JPM:DW

[redacted] left at the close of business August 10, 1951 on three weeks annual leave for the purpose of getting married. It is noted the supervisor of the Mail Room, [redacted] made the observation that on August 10, 1951, [redacted] was in a state of exhilaration throughout most of the day apparently over the prospect of his contemplated wedding.

There are attached permanent briefs of the files of Mr. Nease and [redacted]

There were two places in this instance where there was a failure of persons who had responsibility to function properly. Mr. Nease inadvertently failed to note that there was a letter attached that required the Director's autographic signature. [redacted] was required to check the correspondence to see if it was properly signed and also to place the material in the envelopes for delivery to Mr. Nichols. [redacted] failed to function properly on this occasion. b6

I do not think any of the other employees who handled this matter had any responsibility for noting the lack of the autographic signature and consequently I feel that no action should be taken concerning them. Everybody concerned, of course, realizes now that the letter was not handled properly.

Since [redacted] has not had an opportunity of giving his explanation for his failure to act on this occasion in a proper manner, I recommend no action be taken in his case until he returns from annual leave. I think with respect to Mr. Nease, however, that he should receive a letter of censure for his failure to handle this matter properly.

RECOMMENDATIONS.

1. It is recommended that Mr. Nease receive a letter of censure for his failure to function properly in this instance and to carefully check the material which had been referred to the Director's Office for handling.

2. It is recommended that in so far as clerical employee [redacted] is concerned that no action be taken at this time but that he be interviewed upon his return from annual leave and given an opportunity to submit his explanation and at that time appropriate disciplinary action can be considered.

Q

Q

3. In so far as any of the other employees are concerned who had anything to do with this matter, I recommend no further action since they were not required to check the mail to see that it bore the Director's autographic signature and they had no reason to do so.

Agrees with Richard

MEMORANDUM FOR MR. TOLSON
MR. GLAVIN

I returned the telephone call from Senator Kenneth McKellar who stated he was inquiring concerning Gordon A. Nease who had made application for a position on the Appropriations Committee. I told the Senator that I could not speak too highly of him; that he has been in my own immediate office for some time; that he was originally from Arkansas and also two of his sisters were in the Bureau. I also stated that he had a good family background and was a competent and efficient man. The Senator was advised that Mr. Nease had informed me that he was going to apply for this position and I had told him it was all right if it would give him a better opportunity and more advancement for him and stated that his gain would be my loss. The Senator was most appreciative of this information.

TO : Mr. Tolson

DATE: October 17, 1951

FROM : Mr. Nichols

SUBJECT:

C. H. Nease

By reference from the Director's Office, I talked to Thurgood Marshall, General Counsel of the National Association for the Advancement of Colored People.

He stated that he had to be up on the hill at 10:30 tomorrow morning and he wanted to talk to Mr. Hoover if it were at all possible and if this were not possible, then he would like to come by and talk to me prior to his appearance on the Hill. I told him I doubted that the Director would be available in the morning by virtue of another commitment, but if he were, I knew he would be glad to see Mr. Marshall, and if he were not available, I would see him at 9:45.

Marshall stated that "that no good Pegler" has been after Channing Tobias, who was appointed as one of the alternate delegates to the United Nations, and that the good people had to rally to Tobias' rescue. I told him I frankly did not know whether we had ever investigated Tobias, but would be glad to see him in the morning.

I am having a summary prepared on Tobias and, of course, will avoid letting Marshall use the Bureau.

Mr. Gordon A. Nease
Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Nease:

Receipt is acknowledged of your letter of February 12, 1952, submitting your resignation as an Inspector in the Federal Bureau of Investigation, and you are advised that same is being accepted effective at the close of business February 15, 1952, active duty to cease at the same time. The computation of accrued annual leave payable to you will be furnished at a later date on the personnel action form reflecting your resignation and the amount of such payment due.

There is enclosed an Application for Refund of Retirement Deductions which should be executed by you, in duplicate, and returned to this Bureau for appropriate action. However, it should be noted from the form which is also enclosed that you have a choice of accepting either a refund or a deferred annuity beginning at age 62 and if the latter choice is made the refund application should not be filed. For your information, deductions will not be taken from your salary for retirement purposes subsequent to the effective date of your resignation.

It is requested that you keep this Bureau promptly advised of your forwarding address and any changes therein until such time as all salary matters have been settled. This will eliminate considerable delay in transmitting checks to you.

Sincerely yours,

PERSONAL

Dear Gordon:

I want you to know that in leaving the FBI and more particularly the staff of my immediate office, a great loss will be felt. Your tireless energy and high personal standards have won the confidence of all who came into contact with you.

You have contributed in a major way to the prestige and standing which the FBI holds at the present time in the minds of law-abiding citizens of our country and you may take just pride in having played such an important role in accomplishing this.

I personally shall miss you greatly because your services have been far more than that officially required in the position which you held. You have been of great personal assistance to me in many, many problems.

I want you to know that you take with you my very best wishes for success and progress in your new work. If I can at any time be of any service to you, either officially or personally, I hope you will not fail to let me know.

RE: GORDON ARTHUR NEASE

Mr. Nease entered on duty in this Bureau on March 1, 1935, in a temporary capacity as a typist with salary at the rate of \$4.00 per day and on April 26, 1935, his appointment was made permanent, at which time he was occupying the position of Typist in Grade CAF 2 with salary of \$1440 per annum. He subsequently received the following payroll changes:

Junior Clerk-Typist	CAF 2	\$1440	7-16-35
Assistant Clerk-Typist	CAF 3	\$1620	12-1-35
Tour Leader	CAF 3	\$1800	2-16-37
Stenographer-Reporter	CAF 4	\$1800	11-1-37

On November 1, 1938, Mr. Nease was appointed to the position of Special Agent in Grade CAF 9 with salary of \$3200 per annum and received the following payroll changes:

Special Agent	CAF 10	\$3500.00	12-16-40
Special Agent	CAF 11	\$3800.00	6-16-41
Special Agent	CAF 12	\$4500.00	10-1-41
Special Agent (Confidential)	CAF 13	\$5600.00	8-14-44
Assistant to Director			
Inspector	CAF 13	\$7820.40	3-9-47
Inspector	CAF 14	\$8179.50	9-21-47

Following a period of training as a Special Agent he performed accounting duties in the Pittsburgh, New York, Louisville and Memphis Offices of this Bureau and served in the Director's Office at the Seat of Government. Mr. Nease submitted his voluntary resignation effective at the close of business February 15, 1952, and at that time he was receiving salary of \$10,000 per annum in Grade GS 14. His services were entirely satisfactory and nothing of a derogatory nature was known concerning his character or integrity during the period in which he was an employee of this Bureau.
